Electric Fencing Offers & Solutions

GALLAGHER™

SPECIAL OFFER

NOW WITH FREE EARTH STAKE!

03330 050115 **sales@mcveighparker.co.uk**

Gallagher energisers come with a standard 3 year warranty which can be extended to 7 years when you register your product.

When do you need to register your energiser?
Register your product within 3 months of purchase.
See below links.

Already bought your energiser?
Please complete the form to register for the additional 4 years on the warranty.

For full warranty terms and conditions go to

Need help?
Call your local depot here >

SAFE
Animals remember and develop a respect for the fence

DURABLE
Stock pressure on your fence is reduced so it lasts longer

EASY TO INSTALL
Less than half the time to build vs a non-electric fence

ECONOMICAL
Costs less to build and maintain than a non-electric fence

WHAT ANIMALS DO YOU WANT TO KEEP IN OR OUT?

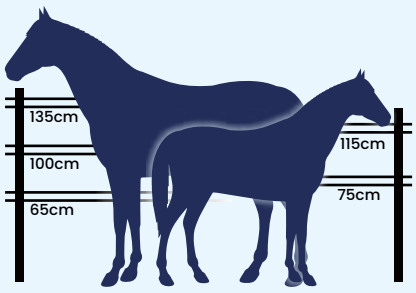
TOTAL AREA TO BE FENCED

WHAT POWER SOURCE WILL YOU USE FOR YOUR ENERGISER?

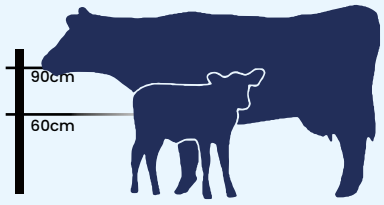
Gallagher 230 Volt energisers are the best and most economical choice for areas where you have reliable power. Solar/battery or solar powered energisers are the most logical for remote areas.

DO YOU NEED A PERMANENT, OFFSET OR TEMPORARY/PORTABLE FENCE?

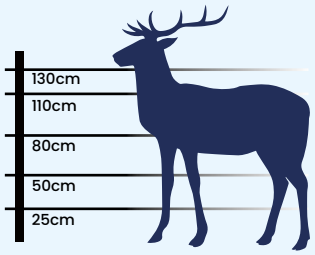
- **Permanent:** Long life, permanent electric fences for highly effective animal control that last a lifetime.
- **Offset:** Protect and extend the life of an existing conventional non-electric fence by adding electric wire(s).
- **Temporary/Portable:** Easy to transport, assemble and take down allowing flexible fencing for short-term animal control or rotational grazing.



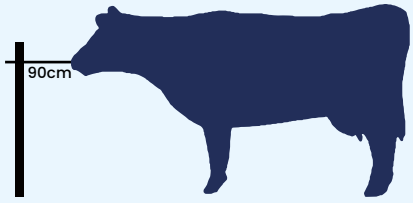
Horses



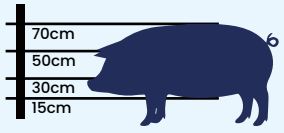
Cows with calves



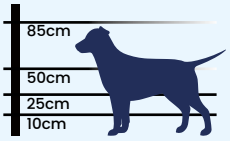
Deer



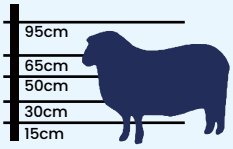
Cows without calves



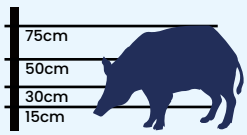
Pigs



Large dogs



Sheep



Boar

GALLAGHER™

SOLAR RANGE

- ✓ Works for up to 3 weeks without sun
- ✓ Designed for all weather conditions
- ✓ Super tough, drop resistant, and has a waterproof casing
- ✓ Quick and easy install
- ✓ Built-in lightning protection
- ✓ Now the only one in the market to offer 7 years of warranty!

SPECIAL OFFER

NOW WITH FREE EARTH STAKE!

S10/S16 = 0.5m
S20/S40/S100 = 1 m

PREMIUM QUALITY 7 YEARS WARRANTY

S100 Portable Solar Fence Energiser
EF5400

- Maximum output voltage (V): 9000
- Charging energy (J): 1.0
- Maximum impulse energy (J): 0.74
- Solar panel (Watt): 7
- Number of earthing rods required: 2 x 1 m

S20 Portable Solar Fence Energiser
EF5344

- Maximum output voltage (V): 8000
- Charging energy (J): 0.20
- Maximum impulse energy (J): 0.16
- Solar panel (Watt): 1.5
- Number of earthing rods required: 1 x 1 m

S40 Portable Solar Fence Energiser
EF5350

- Maximum output voltage (V): 7800
- Charging energy (J): 0.40
- Maximum impulse energy (J): 0.29
- Solar panel (Watt): 4
- Number of earthing rods required: 1 x 1 m

Mounting your solar energiser – they can be screwed to a timber post, onto pigtail stakes (adaptor needed). Or mounted on angle iron or tubular posts, simply slot in the winged hole at the base of the energiser.

S10 Portable Solar Fence Energiser
EF5340

- Maximum output voltage (V): 7000
- Charging energy (J): 0.10
- Maximum impulse energy (J): 0.07
- Solar panel (Watt): 1.5
- Number of earthing rods required: 1 x 1 m

S16 Portable Solar Fence Energiser
EF5342

- Maximum output voltage (V): 8000
- Charging energy (J): 0.16
- Maximum impulse energy (J): 0.13
- Solar panel (Watt): 1.5
- Number of earthing rods required: 1 x 1 m

MOST POPULAR PRODUCTS

STAKES

- ✓ **Ideal for erecting temporary or permanent electric fencing**
- ✓ **Our range includes both plastic, steel and timber stakes**
- ✓ **Suitable for livestock including horse, cattle and pig fencing**

Multi Fix Stake
EF1000

- Ideal for all types of temporary fencing
- Sturdy footplate
- Length 1.05m (87cm with 18cm spike)

Multi Fix Horse Stake
EF1015

- Sturdy double footplate
- 9mm diameter spike allows posts to be placed in tough ground
- 11 lugs, suitable for wires and tape up to 20mm

Pigtail Post
EF1020

- Traditional pigtail style for single-line dairy fencing
- Length: 1.05m (85cm with 20cm spike)
- Suitable for all types of electric rope and wire

Clipex Pasture Post
Standard: CL2705 Beefy: CL2708

- 1.5m, 4 clip steel posts
- Clipex steel posts have been used successfully in 'mobile grazing systems'

INSULATORS

Screw-in insulator
EF2025

- Impact-resistant plastic
- Metal core for added strength and durability

Offset Screw-in Insulator
EF2035

- Available in 100m and 180mm
- Suitable for super poly wire, stranded wire, electric rope and 12mm electric tape

End Strain Insulator
EF2020

- Strong - polycarbonate.
- For high tensile permanent and temporary fencing
- Suits galvanised wire, poly rope or poly wire

Staple-on Insulator
EF2090

- Suitable for poly wire and stranded wire
- Easy to install
- Moulded in one piece to minimise shorting

Offset Wire Insulator
EF2120

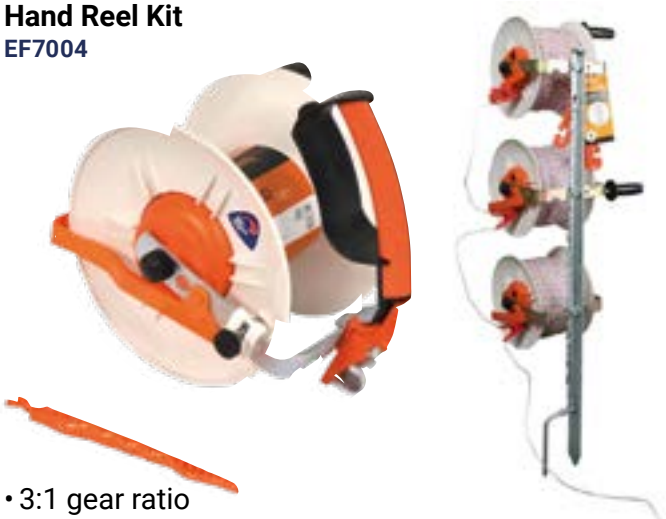
- Easy to fix to most standard fabricated netting, chain link or line wire fences
- 2-year product warranty

Clipex Insulators
VIEW FULL RANGE HERE >

- Insulators compatible with Clipex posts

CLIPEX

Hand Reel Kit
EF7004



- 3:1 gear ratio
- Holds at least 500m polywire, 200m cord, 200m tape

Digital Voltmeter
EF4070

- Gives an accurate reading of your fence voltage, from 0 to 9900v without risking a shock!
- Helps to locate the source of a short in the fence line
- 9v battery included

Neon Fence Tester
EF4075

- An economical and safe way to test your electric fence is working properly
- Helps you locate the source of a short
- No batteries required
