# FULLY MESHED DEER GATE

## SPECIFICATION SHEET

Whether you are containing or excluding deer, protecting yards, lagoons, or private areas, these gates are substantial enough to give a long trouble-free life.

Deer gates can be installed anywhere in the fence line to provide an effective entry/exit point without compromising the strength of the fence line. The all steel box section construction makes them very suitable for high pressure areas.

### Specifications

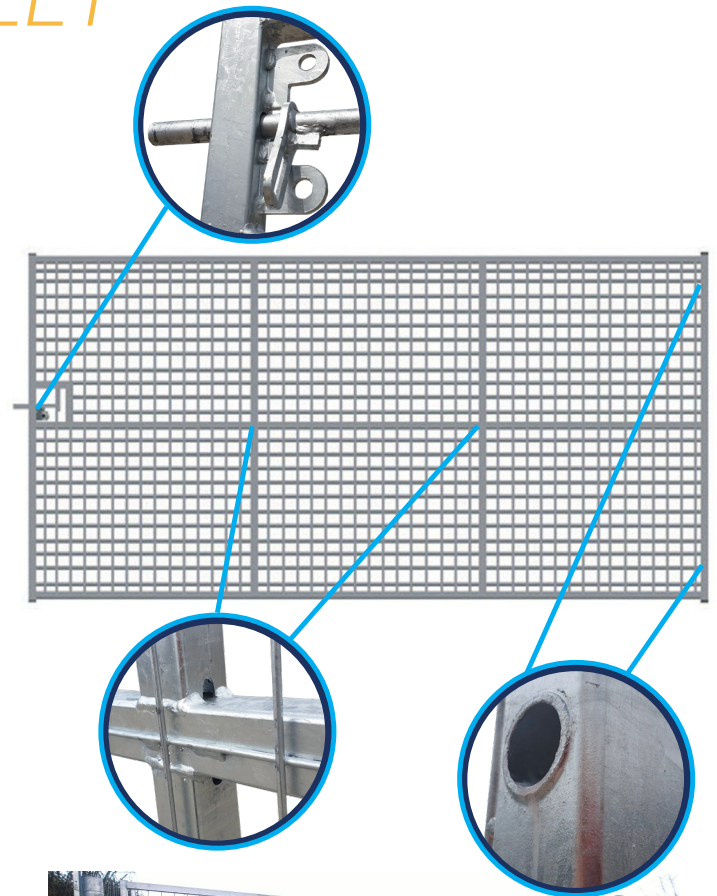

- 1860mm high
- Fully galvanised to BS EN ISO 1461
- Fully welded meshed and clad in 75mm x 75mm x 4mm
- RHS frame 40mm x 40mm heavy box section construction
- Hot-dipped galvanised after fabrication for the best corrosion protection

### Features

- 20mm adjustable gate eyes
- Reinforced gate eye sleeves
- Central sliding bolt with pendulum lock as well as the facility to padlock
- Two 150mm fully adjustable 19mm shank x 19mm gate eyes are included with this gate

Height	Width	Code
1860mm	1220mm	GFM04S
	3050mm	GFM10S
	3660mm	GFM12S

**Please note** - bespoke solutions including larger widths, pairs, railed versions and timber options are also available. Please contact us for more information.
