# XFENCE HORSE SPECIFICATION SHEET

The unique strong unobtrusive Xknot not only provides an excellent joint, but it's smooth surface also provides a safe environment for your horses.

Five sizes to choose from, all with reduced mesh sizes, greatly reducing the risk of injury or hoof entrapment.

### Benefits

- Superior alu/zinc coated wire, lasts 3-4 longer than galvanised wire
- Premium primary wires only used in Xfence fabricated netting
- Consistent superior high tensile strength wires only
- Greater rigidity due to the one-piece vertical wires
- Smoother and safer non-abrasive forged X knot
- Proven in the field since its conception in 2007
- Easier to install, almost self-supporting
- Save on both labour and posts
- Longer maintenance free life
- Guaranteed to last
- Made in New Zealand by the specialists in high tensile fencing
- Distributed nationally by the UK's leading fencing supplier

- Manufactured from highest quality primary metals
- 95% Zinc 5% Aluminium
- XTRALIFE coating 24% stronger knot
- Smooth animal friendly abrasive free design forged X knot

- Tension curves absorb any pressure from climatic change or livestock pressure. Reduce by 50% for visible tensioning
- 450mm Pre-stripped ends, speeds up tying off time

- One piece uncut vertical wire
- Acts like its own intermediate, provides real strength & rigidity to the fence, almost self supporting
- Makes installation quicker

- Xtralife coating makes the wire more ductile, easier to work
- Resists cracking when tying off, unlike some heavy galvanised wire

Real return on your investment, not all wire is the same, why gamble?

#### XHT13-125-5 - Ultimate

This is the ultimate in horse fencing with its 50mm (2") vertical wire spacing creating a very fine mesh. This fence gives you value for money and lasting durability. The thinner mesh spacing make this more suitable for foals.

#### XHT13-125-7.5 - Supreme

The added height gives extra security and is more suitable for internal paddocks and larger horses.

#### XHT11-122-7.5 - Railway

A cost effective tall horse netting which can be used on its own or with a top rail, stud rail or single strand wire. Also used on railway fencing where horses are present.

#### XHT12-110-7.5 - Maxi

An economical height horse netting which can be used on its own or with a top rail, stud rail or single strand wire.

#### XHT10-90-7.5 - Standard

A cost effective netting where a minimal safe barrier is required. Can be used with existing or new post and rail fences.

Specification	Horizontal Wires	Vertical Spacings (cm)	Height (cm)	Roll Lengths (m)	Code
XHT10-90-7.5 Standard	10	7.5	90	50m	F2400
				100m	F2401
XHT12-110-7.5 Maxi	12	7.5	110	50m	F2402
				100m	F2403
XHT11-122-7.5 Railway	11	7.5 	122	50m	F24062
				100m	F24065
XHT13-125-7.5 Supreme	13	7.5	125	50m	F2404
				100m	F2406
XHT13-125-5 Ultimate	13	5	125	50m	F2408
