

# DURA<sup>2</sup> TIMBER

**DURA<sup>2</sup> is the patented production process which is sustainable, environmentally friendly, and the cost effective alternative to creosoted timber. This new process extends the life span of the timber to 20 years and more.**

The unique DURA<sup>2</sup> timber procedure starts with timber selection, with wood carefully selected from sustainable woodlands. Once felled it goes through an initial controlled drying process, then impregnated to saturation point with the improved treatment agent. After the first treatment the timber goes through a deep drying process, then retreated once again. This double treatment process provides the strongest protection and the most durable treated softwood timber for fencing.

This unique technique creates a fence timber of the highest quality. In addition, the wood gets a chic look due to the dark colouring without any unpleasant odours or carcinogenic properties.

**DURA<sup>2</sup> is the answer for those looking for a longer lasting timber fence with an attractive appearance. Guaranteed for 20 years.**

**UC4  
COMPLIANT**

- ✓ Pedigree durable product.
- ✓ Controlled drying process.
- ✓ Safe to both livestock and humans, no leaching.
- ✓ Produced from slow grown European pinewood only.
- ✓ Treated twice (with deep drying between the two treatments). Pressure treated with a high concentrate.
- ✓ DURA<sup>2</sup> is an enhanced and patented treatment process using Tanalith E preservative.
- ✓ DURA<sup>2</sup> has the appearance of creosoted timber without the smell or possible carcinogenic properties.
- ✓ Homogenous dark brown chic colour.
- ✓ 20 year manufacturer's warranty.

# DURA<sup>2</sup> TIMBER RANGE
