

PLASTIC DEER, PHEASANT AND BIRD NETTING SPECIFICATION SHEET

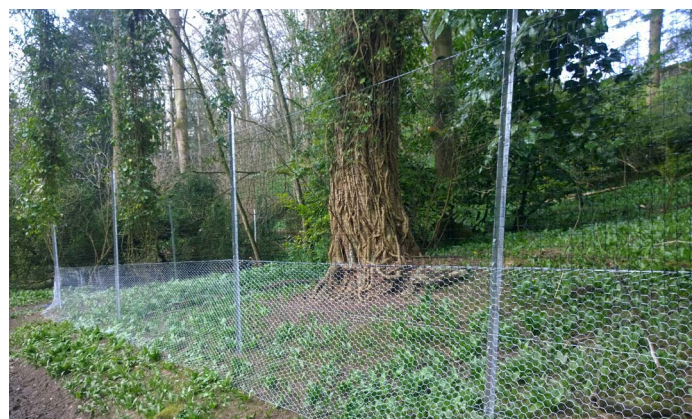

High tensile strength tough yet lightweight unobtrusive extruded plastic netting. An effective yet economical exclusion barrier, the perfect solution for an immediate and quick deer protection.

HD UV-Protected Polypropylene Low-Visibility Deer Net Fencing

This black netting creates an unobtrusive barrier, blending into the background, making it ideal for gardens. Lightweight, UV stabilised, rot proof and easy to install. This particular mesh and 1.8m fence height are designed to exclude Muntjac, Sika and Roe deer, although Fallow deer will be deterred we recommend a higher plastic or ideally a permanent galvanised wire netting fence for total exclusion.

Erection : McVeigh Parker have a full range of posts and accessories to help with your install. The netting can simply be cable tied to line wires, battened to timber posts or used with Clipex® steel posts and line wire system for a fully moveable long lasting fence system.

Netting Type	Dimensions	Code
Deer & Pheasant Net	1.8m x 100m - 50mm x 50mm	NET250
Deer & Pheasant Net	1.2m x 100m - 50mm x 50mm	NET251

For those looking for a smaller mesh for better protection from birds etc, we recommend below. Not suitable for deer exclusion

Suitable for many other applications.
Such as pheasant pens, fruit protection, vegetable and shrub protection, pool/pond netting.

Netting Type	Dimensions	Code
Bird exclusion/ fruit protection netting	1.8m x 100m 19mm x 19mm	NET235
Bird exclusion/ fruit protection netting	1.2m x 100m 19mm x 19mm	NET220

PLASTIC DEER NETTING

TECHNICAL DATA SHEET

Code	NET250
Material Type	HDPP (High Density Polypropylene)
Colour	Black
Weight (GSM)	80g/m ² , 14.4kg per roll
UV Stability	5%
Tensile Strength	Horizontal: > 7.4Kn/M Vertical: < 5.9Kn/M
Width	1.8m
Length	100m
Useful life	3-5 years according to different using environment
Mesh	50x50mm

Code	NET251
Material Type	HDPP (High Density Polypropylene)
Colour	Black
Weight (GSM)	80g/m ²
UV Stability	5%
Tensile Strength	Horizontal: > 7.4Kn/M Vertical: < 5.9Kn/M
Width	1.2m
Length	100m
Useful life	3-5 years according to different using environment
Mesh	50x50mm

PLASTIC BIRD NETTING

TECHNICAL DATA SHEET

Code	NET220
Material Type	HDPP (High Density Polypropylene)
Colour	Black
Weight (GSM)	50g/m ² , 6kg per roll
UV Stability	5%
Tensile Strength	Horizontal: > 7.4Kn/M Vertical: < 5.9Kn/M
Width	1.2m
Length	100m
Useful life	3-5 years according to different using environment
Mesh	19x19mm

Code	NET235
Material Type	HDPP (High Density Polypropylene)
Colour	Black
Weight (GSM)	50g/m ² , 9kg per roll
UV Stability	5%
Tensile Strength	Horizontal: > 7.4Kn/M Vertical: < 5.9Kn/M
Width	1.8m
Length	100m
Useful life	3-5 years according to different using environment
Mesh	19x19mm
