

CLIPLEX PASTURE POST

SPECIFICATION SHEET

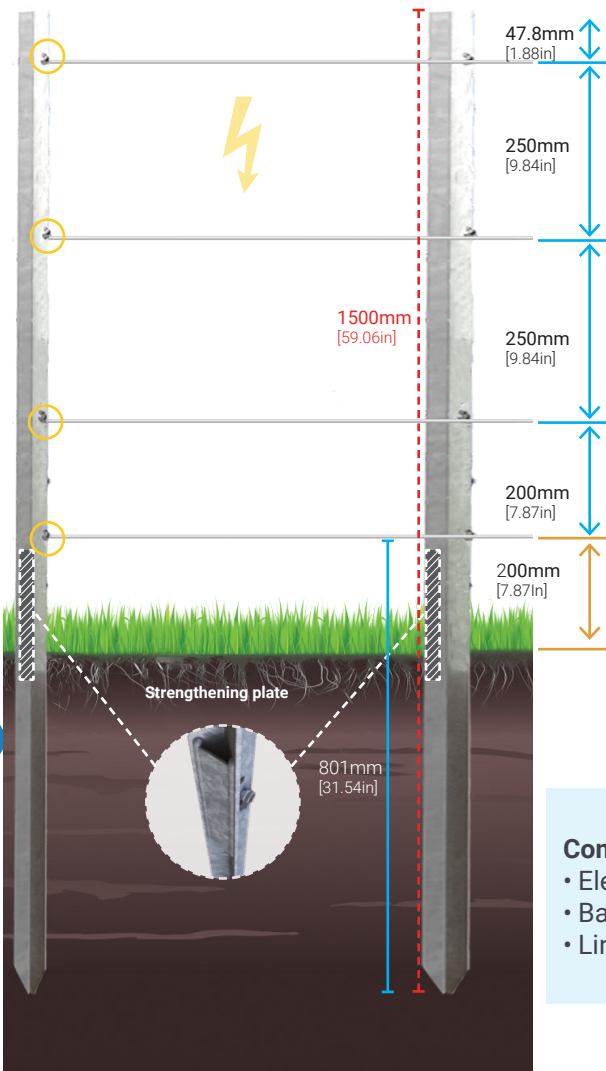

Designed for single line fences. It can also be used for permanent electric fencing systems, line wire, barbed wire or rabbit fencing.

Unlike other posts in the Clipex range, the pasture post does not feature the anti-lift plate, which allows them to be moveable and reusable, ideal for electric strip grazing, temporary rabbit fencing or simple demarcation line wire fencing.

Standard CL2705

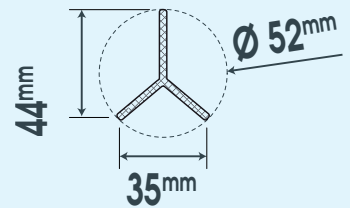

Standard & Beefy
same clip spacing

Beefy CL2708

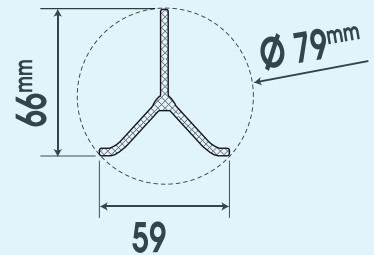

Eco Pasture - 4 Clips

- **Length:** 1.5m
- **Weight:** 2.16kg
- **In ground depth:** 600mm (fence height - 900mm)
- **Profile:** 44mm x 35mm
- **Thickness:** 2.5mm

Beefy - 4 Clips

- **Length:** 1.5m
- **Weight:** 5.25kg
- **In ground depth:** 600mm (fence height - 900mm)
- **Profile:** 66mm x 59mm
- **Thickness:** 3.5mm

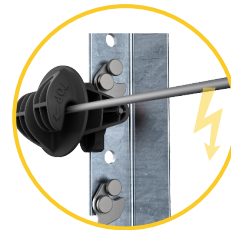

To create an effective long lasting electric fence, simply add the easy to attach Clipex insulators to the post.

Post cap

Enables the Clipex post to have further electric lines or tape at the side, whilst also protecting livestock from possible injury. Locking wedge locks the cap in place.

Clipex Insulator

Exceptionally strong insulator with a stainless steel pin that is quickly attached to both wire and Clipex post.

Compatible wire

- Electric rope/wire
- Barbed wire
- Line wire
