

# UNIVERSAL GATES

## SPECIFICATION SHEET

### UNIVERSAL SOFT WOOD GATE

- > High quality prepared softwood drive/field gate
- > Full width heavy top rail for added strength
- > Pressure treated with Tanalith E for maintenance free longevity

Available in 13 widths, starting at 0.90m up to 4.50m

### FEATURES

- > These high specification traditional universal 5 bar design wooden gates are made from kiln dried Scandinavian Redwood.
- > Features a heavy solid top rail ex100mm x 75mm for the entire width of the gate for added strength. The popular diamond braced design also gives added strength to the gate.
- > Rails and cross bracing ex75mm x 25mm are all held together with stainless steel nuts and bolts and are morticed into the headstocks.
- > The hanging headstock style is ex125mm x 75mm with an ex75mm x 75mm closing stile, both with rounded tops.
- > Height to top of hanging stile is 1.2m (47"). Standard sizes range from 0.9m (3") to 4.57m (15").
- > Full range of fittings and posts to suit various options stocked.

**ALL UNIVERSAL SOFTWOOD GATE CONFORM TO BS370 & COMPLY TO HIGHWAY SPECIFICATIONS**

### UNIVERSAL IROKO HARDWOOD GATE

- > They can be hung as a single leaf or alternatively a combination for wider entrances.
- > No treatment required (although a coating of teak oil annually will help maintain its natural colour.)

Available in 10 widths, starting at 0.90m up to 3.60m

### FEATURES

- > Iroko - The premier hardwood, with the appearance and qualities of teak. Planed and sanded mid brown finish.
- > The tapered top rail is designed to reduce the pressure on the hanging stile.
