APPLICATIONS

The ***Heavy Bottom Rail Wooden Gate*** is perfect for rural properties, farms, and estates where robust and secure access is required. Its suitability for electric gate installations makes it a versatile choice for modern entry systems. Additionally, the 6 rail option is particularly beneficial for pet owners wishing to secure their animals safely.

For those interested in a bespoke option, five and six heavy bottom rail gates can be made to order in any size up to 4.57m. ***As can our very popular Yeoman style entrance gates***. All these can be produced in either planed treated softwood or Iroko hardwood. Please contact us for more details or to discuss your specific requirements. Be aware that longer lead times may apply, and your local depot will advise accordingly after your order is received.
