|------------|------------|-----------|--------------------|
| 750 | 2000 | 20um | 40 |

SILOTITE[®] Pro

"The Contractors Choice"

Ease of use

- No special adjustments required
- Clean, set and adjust the machine as normal
- Load and wrap as normal

Storage

- Completely sealed in unique sleeve packaging
- Waxed cores – virtually weather proof
- Traceable label in each core

Labour saving

- More metres per roll = fewer reel changes

Money saving

- More bales per roll = less £s

Waste saving

- No boxes to dispose of
- Less film by weight to recycle post use

Technology

- Manufactured using the latest extrusion technology
- Manufactured 20 microns thick – not 25 microns then stretched like competitors' film

Flexibility

- Suitable for use on round bales
- Can be used on small square bales
- Not recommended for large square bales
