

MILD TENSILE BARBED WIRE

SPECIFICATION SHEET

- Our twin strand barbed wire is produced from the highest quality wire, available in both mild steel and high tensile options to suit a variety of applications.
- Supplied on wooden reels for strength and ease of disposal, and with hessian handles to be easier to carry.
- Ideal for use on the top or bottom of stock fencing, use as a three or five strand cattle fence or for use with security fencing.

Coating	Line wire dia (mm) & Tensile Strength of Line Wire (N/mm ²)	Barb dia & Tensile Strength (mm) / (N/mm ²)	Roll Length (m)	Average Weight per roll (kg)	Code
Galvanised Steel	2.5mm dia - 415-495 N/mm ²	2.00mm dia - tensile strength 415-495 N/mm ²	200m	23.75kg	F2000

Galvanised Steel

- Manufactured to BS EN 10223-1
- Zinc Coating (HDG) 245grm BS EN 10244-2 Class A
