DURA² TIMBER

The sustainable cost effective alternative to creosoted wood is the new impregnation DURA².

Unique to DURA² is the impregnation process. The wood undergoes the process not once but twice. This product is environmentally friendly, does not smell, has a beautiful brown color and comes with a 20-year warranty.

- ✓ Pedigree durable product.
- ✓ Seasoned for six months before treatment.
- ✓ Safe to both livestock and humans, no leaching.
- ✓ Produced from slow grown European pinewood only.
- ✓ Treated twice (with a drying between the two treatments) with a very high coloured concentrate.
- ✓ DURA² is an enhanced and patented treatment process using Tanalith E preservative.
- ✓ The appearance of creosoted timber without the smell or carcinogenic properties.
- ✓ Homogenous dark brown chic colour.
- ✓ 20 year manufacturers warranty.

Initially stocked in certain sizes, however larger projects and full artic loads are available, contact us with your requirements. Stockist, trade and contractor rates available.

- **OVER £10,000,000 WORTH OF TIMBER SOLD ANNUALLY.**
- **QUANTITY DISCOUNTS, TRADE RATES, DIRECT LOADS, ONE PIECE TO FULL ARTIC.**
- **MECHANICAL OFFLOADING.**
