### About Us

McVeigh Parker is one of the premier specialist agricultural stockists with a reputation for innovation. Operating as an independent company for over 40 years, we are constantly looking at better, more advanced products that offer our customers a greater return on their investment.

We hold over £10m of farming and fencing stock in our eight nationwide branches and keep thousands of products available for quick and efficient delivery. Our bulk buying and storage policy leads to the significant savings we can offer no matter how big or small the project.

Our user-friendly website allows customers the freedom to choose purchasing goods online, direct from local branches or from Key Account Managers.

### Innovation

As well as serving the needs of individuals, farmers, and contractors we have a proven track record delivering to major organisations such as the National Trust, Network Rail, RSPB, Natural England and the Environment Agency.

**Talk to us for the  
best prices and  
the best service**

### Trade department more than just sales people

We have a dedicated team of Key Account Managers who specialise in servicing the trade, utility and commercial sectors. They are also available for on site advice, design and planning of your next project or budget management.

- Fence designs and specifications
- Latest advice on innovative products
- Livestock handling system design and supply
- Trade stockist rates available

- Livestock feed systems design and supply
- Treatment plant advice
- Latest grant information
- Dedicated key account manager

If you are looking for the **latest pioneering products** call us today

Fencing

5

## Contemporary & traditional fencing options

### Garden Fencing

Updating, restoring, or replacing your garden fence? Our huge stock includes natural, rustic, and contemporary fences, also panel fencing kits to make the job easier. Our stock of soft landscaping options includes sleepers, path edging, and wattle hurdles for a more natural look.

### Timber

Traditional wooden fencing is great for an inexpensive and aesthetically pleasing fencing solution as it is both attractive and functional. Perfect for paddock and roadside fencing, post and rail is an ideal choice for a cost-effective traditional fence.

### Security Fencing

When you need to keep your land, property or business location safe, you'll need security fencing. For many years chain link and welded mesh have been the go to security fencing of choice which we stock. We also stock the modern mesh panel systems in various heights.

### Triple X Fencing

Tried, tested and guaranteed to last longer, our Triple X fencing kits consist of "the best performing trio" - X fence premium wire netting, Clipex® steel posts and Triple X Strainers. Kits are available in a variety of packages to suit your needs and budget.

### Electric Fencing

We stock only the leading manufacturers in electric fencing such as Gallagher, Strainrite, Clipex® and our huge stock holding allows for the immediate dispatch of all of our electric fencing products.

### Wire

Ideal for use in industrial, agricultural or domestic settings, wire fencing is a popular all-round fencing solution. Thanks to recent improvements in wire fencing technology, there is a much wider choice available today than there was ten or so years ago.

Our fencing stock ranges from Clipex® fencing, famous for its ease of use and its longevity, to traditional timber fencing, electric fencing, wire and stock fencing as well as security and domestic fencing and gates.

## Triple X Lamb Friendly Stock Fence

Below, a technical drawing of a Triple X stock fence kit showing all the components and measurements needed to complete the project.

- 1.1m fence height
- Clipex® Standard posts 4.5m apart
- Clipex® Beefy every 5th post
- 2 lines of barbed wire (optional)
- Wire mesh has 22cm spacing between vertical wires

 **High Tensile Barbed Wire**  
2mm, 200m

 **Triple X Corner/Two Way Strainer**

 **Clipex® Standard Posts**  
1.8m - 1.1m fence height  
In-ground depth 700mm

**Triple X Diagonal End Strainer**

4.5m intermediates

**Clipex® Beefy Posts, When should you use Beefy posts?**

Add a Beefy every 4th or 5th post to give added strength to the whole fence.

Use ALL Beefys if a cattle dividing paddock, ideally add electric also.

Use Beefys on turns of 15 degrees or less.

Use Beefys in peaks and troughs on undulating ground.

## Have You Seen?

### Our Triple X Deer Fence Kit

This kit contains all you need for 1000m of quality Triple X deer fencing, providing an overall fence height of 2.1m.

For further details see pages 16 and 17.

**CLIPEX®**

## Wire Fencing

A wide choice of stock netting, hexagonal wire netting, line wire and barbed wire, in different tensile strengths. For use in industrial, agricultural or domestic settings. We have a huge stock with over 50,000 rolls of fencing available. We can also design bespoke fencing.

### Understanding the netting codes

#### Tensile Strength

The strength of the wire, measured in N/mm<sup>2</sup> (Newton per square millimeter) in both horizontal and vertical axis.

### What do the product descriptions mean?

Fabricated netting codes. XHT8-80-15  
 X = X Knot  
 L = Light weight mild steel, hinge joint  
 C = Medium weight, mild steel, hinge joint  
 B = Heavy gauge, mild steel, hinge joint (very rarely used now)

LHT = Light high tensile  
 HT = Heavy high tensile

XLHT = Light high tensile, X knot joint  
 XHT = Heavy high tensile, X knot joint

8 = The amount of horizontal line wires  
 80 = Height in centimetres  
 15 = Distance between the vertical wires

#### Coating options to BSEN 10244-2

Xtralife alu/zinc coating.  
 Lasts 2-3 times longer than galvanised coating.  
 Highly recommended, exceeds British Standards.

### Wire Joint Options

#### Hinged joint

Traditional economical knot found in many types of fabricated net. Each vertical stay wire is separately wrapped at every horizontal line wire.

#### X Knot

Proven to be one of the strongest knots in high tensile fabricated netting. The one piece vertical wires are held in place by a smooth surfaced forged X knot, creating an extremely strong almost self-supporting net

### Tensile Strengths

Horizontal Wires	Vertical Wires
L Mild = 600 - 800 mpa	400 - 600 mpa
C Mild = 600 - 800 mpa	400 - 600 mpa
LHT = 1100 - 1250 mpa	600 - 750 mpa
HT = 1048 - 1248 mpa	600 - 800 mpa
XLHT = 1235 - 1550 mpa	850 - 950 mpa
XHT = 1235 - 1550 mpa	850 - 950 mpa

## X<sup>TM</sup> FENCE® 'THE ORIGINAL'

X fence fabricated fencing systems are world renowned for their durability and market leading quality. Using only the highest quality raw materials in their state-of-the-art production facility, X fence has been tried and proven in the harshest conditions and most testing applications worldwide.

- Stronger wire
- Premium coating
- Easier installation
- Longer maintenance free life

X Knot Joint

A wide variety of mesh patterns stocked to suit all livestock types.

### What separates X<sup>TM</sup> fence® from the rest?

- X fence is the original X knot stiffstay product
- Only primary metal used, which means you get consistent tensile strength every time
- Every roll comes with 450mm pre-stripped ends, which make tying off easier and quicker
- Alu/zinc coated which gives 3-4 times longer life than standard galvanised products
- The alu/zinc coating also makes the wire more ductile, easier to work with and won't crack when tying off, which can happen with some heavy galvanised products
- X fence have years of experience in producing a premium product, having this knowledge has enabled them to apply the correct pressure on the knots which reduces the wire snapping at the knots when tying off which can happen with similar products
- Guaranteed meterage
- Higher tensile strength than some cheaper heavy galvanised products helps retain tension over the life of the fence
- Non abrasive knot, prevents hide damage
- The British Standard BSEN 10244-2 coating lists a sacrificial zinc coat of 230 gm-2, X fence exceeds these standards with a Alu/Zinc alloy coating which offers an extended life protection
- X fence exceeds European Standards for strength and galvanisation and is manufactured to BSEN 10223-5

- Manufactured from highest quality primary metals
- 95% zinc 5% aluminium
- XTRALIFE coating
- 24% stronger knot
- Smooth animal friendly abrasive free design forged X knot

- Tension curves absorb any pressure from climatic change or livestock pressure. Reduce by 50% for visible tensioning
- 450mm Pre-stripped ends, speeds up tying off time

- One piece uncut vertical wire
- Acts like its own intermediate, provides real strength & rigidity to the fence, almost self supporting
- Makes installation quicker

- XTRALIFE coating makes the wire more ductile, easier to work
- Resists cracking when tying off, unlike some heavy galvanised wire

## Livestock Fencing

Understand the netting codes

An unobtrusive smooth surface X knot greatly reduces the risk of fleece removal or hide damage, this is a very popular mesh pattern used widely in the UK and is ideal for most types of livestock. Manufactured to BS EN 10223-5, exceeds BS EN 10244 Class A, wire produced to BS 4102.

## Our Advice

## Looking for a sheep fence?

We recommend **XHT8-80-22**, this lamb friendly option has wider spacing between the vertical wires, this helps prevent lambs and sheep head entrapment also reduces tag loss.

BS172-2 2020 now recognises this netting on welfare grounds.

Check them out in the tools and fixings section of this brochure or go to [mcveighparker.com](http://mcveighparker.com) and order the required items from there.

## Badger Fencing

The X knot badger fencing has been designed to withstand the aggressive nature of badgers. Once the base is buried underground, the fence will exclude badgers. We advise that badger fencing should be at least 1250mm high, buried a minimum 450mm into the ground and then angled for 200mm in the direction a badger would approach.

Can be buried vertically, slightly folded out or used in conjunction with apron net  
XHT6-50-5 (F2428)

X <sup>TM</sup> fence®					
Specification	A	B	C	Roll Lengths	Code
	(cm)	(cm)		(m)	
XHT15-158-7.5	15	158	7.5	50m	F2410
				100m	F2411
XHT17-190-7.5	17	190	7.5	50m	F2454
XLHT6-50-5 <i>Light (Apron)</i>	6	50	5	100m (Hinged)	F2428

**Gauge**  
2.5mm alu / zinc

**Horizontal Tensile Strength**  
1235 - 1550 N/mm<sup>2</sup>

**Vertical Tensile Strength**  
850 -950 N/mm<sup>2</sup>

## Did You Know?

We also sell J & U pins  
for securing a wide range  
of applications.

We also sell badger gates, for more details see our badger fence spec sheet online.

### Strength of badger fencing

to watch video ►**

## Otter Fencing

This predator fencing is designed to protect inland fisheries and facilitate highway exclusion. This high spec fence is particularly suitable for the commercial and government sectors. Shorter heights and lighter gauges, coupled with electric fencing can be very cost effective.

Can be buried vertically, slightly folded out or used in conjunction with apron net XHT6-50-5 (F2428)

**Gauge**  
2.0mm alu / zinc coated high  
tensile wire throughout.

X™ fence®

	(cm)	(cm)	(cm)	(m)	
XLHT19-180-5 <i>Light</i>	19	180	5	50m (hinged)	F2460
XHT19-180-5 <i>Heavy</i>	19	180	5	50m	F2456
XLHT6-50-5 <i>Light (Apron)</i>	6	50	5	100m (hinged)	F2428
XLHT23-240-5 <i>Light</i>	23	240	5	50m (hinged)	F2463 Special
XLHT26-180-5 <i>Light</i>	26	180	5	50m	F2465 Special

## Otter fencing

There are many options for otter fencing - different heights, gauges, one piece, two piece. Our recommendation is to erect a heavy one piece vertical netting, buried, then clip an apron netting above and/or below should there be a need. This will not only make erection easier, the heavier wire will provide a longer, stronger life.

## Otter Vs X fence

[Click link to watch video ▶](#)

## Poultry Fencing

The tensile strength of X fence netting, along with the one-piece vertical wires which almost act as their own intermediate posts, allow posts to be spaced further apart. The X knot joint has been proved to be 24% stronger than similar stiffstay knots. The alu/zinc coating will last three to four times longer. All this combines to make a premium fabricated wire netting that is an effective barrier against predators.

The largest free range poultry producer in Southern England was looking to reduce their annual fence maintenance costs and create a secure fence for their farms. The farm manager used his past experience to design an X fence netting pattern that he was confident would exclude predators. The Triple X system was chosen coupled with XHT26-240-5 hinged X fence and cranks.

Read full case study online  
<https://mcveighparker.com/blog/clipex-chicken-farm/>

See how a free range poultry unit used high tensile hinge jointed poultry netting coupled with Clipex® deer and pasture posts to form a protective enclosure.

**Vertical Tensile Strength**

850 -950 N/mm<sup>2</sup>

## Dog Fencing (X Knot)

Whether you are looking to secure your garden or create a commercial dog walking and exercise area, Dog X fence gives you a long lasting, fully secure enclosure. The one piece vertical wire means less intermediate stakes required, plus you get all the premium advantages of X fence. Combining Clipex® galvanised steel fence posts with X fence premium wire netting you have a fence that's easy to install and maintain and guaranteed for 30 years, this is the choice of the professionals.

## Livestock Fencing (Hinge Jointed)

Cost-effective durable fencing available in light and medium mild wire, as well as light and heavy high tensile options. Hinge joint netting comes in various mesh sizes and patterns to suit specific applications. All our hinge jointed wire netting is manufactured to BS EN 10223-5, all wires used are manufactured to BS4102. Galvanised to BS EN 10244-2 Class A.

### Mild Tensile Hinge Joint

### Light High Tensile Hinge Joint

### High Tensile Hinge Joint

#### Mild Tensile Hinge Joint

Specification	A	B	C	Roll Lengths	Code
	(cm)	(cm)	(cm)	(m)

#### Gauge

2.5mm alu / zinc (top & bottom)  
1.9mm (infills)

#### Horizontal Tensile Strength

600 - 800 N/mm<sup>2</sup>

#### Vertical Tensile Strength

400 - 600 N/mm<sup>2</sup>

### See Also...

Our Triple X dog fence on page 21.

### A Helpful Hint...

X fence stock fence is a premium wire netting that will give a very good return on investment. The one piece vertical wire allows you to space intermediate stakes up to 5m apart. Fewer stakes mean less labour which leads to overall savings. See page 11 for more details.

## Deer Fencing (Hinge Jointed)

Understand  
the netting  
codes

Deer fencing, when properly planned, constructed and maintained, can be an effective way of controlling deer populations and allows different land uses to coexist next to each other. It can also help to protect the public. If you need to contain use heavy gauge. If you wish to exclude you can use heavy or light gauge.

HT13-190-15	13	190	15	100m	F2395

Hinge Jointed Deer Netting is a more cost effective exclusion fence.

For containment we advise using X fence

## Why Alu/Zinc coating?

Alu/Zinc coating simply lasts longer than galvanised coating, especially important in high corrosive areas. The average atmospheric zinc corrosion rates across the UK and Ireland are normally less than 1µm (Micron), per year, a typical 70µm coating can provide over 70 years of maintenance-free life.

The British Standard BSEN 1461 coating lists a sacrificial galvanised zinc coat of 325 g/m<sup>2</sup> (avg 45microns). X fence exceeds these standards.

To check out the corrosive rate of your location log onto this link

[www.galvanizing.org.uk/corrosion-map/](http://www.galvanizing.org.uk/corrosion-map/)

MP wire and posts unless otherwise stated conform or exceed BSEN 1461.T

## Heavy Gauge

2.5mm throughout

## Light Gauge

2.5mm top and bottom  
2.0mm infills

## Horizontal Tensile Strength

1048 - 1248 N/mm<sup>2</sup>

## Vertical Tensile Strength

600 - 800 N/mm<sup>2</sup>

## Coating

XTREME Alu/Zinc coating,  
exceeds BSEN 10244-2 lasts  
3-4 times longer than galv

Features XTREME alu/zinc reinforced coating.

## Plastic Deer / Pheasant Netting

High tensile strength tough yet lightweight unobtrusive extruded plastic netting. An effective yet economical exclusion barrier, the perfect solution for an immediate and quick deer protection.

HD UV-Protected Polypropylene Low-Visibility Deer Net Fencing

Reinforced  
top edge

This black netting creates an unobtrusive barrier, blending into the background, making it ideal for gardens. Lightweight, UV stabilised, rot proof and easy to install. This particular mesh and 1.8m fence height are designed to exclude Muntjac, Sika and Roe deer, although Fallow deer will be deterred we recommend a higher plastic or ideally a permanent galvanised wire netting fence for total exclusion.

Erection : McVeigh Parker have a full range of posts and accessories to help with your install. The netting can simply be cable tied to line wires, battened to timber posts or used with Clipex® steel posts and line wire system for a fully moveable long lasting fence system.

Netting Type	Dimensions	Code
Deer & Pheasant Net	1.8m x 100m - 50mm x 50mm	NET250
Deer & Pheasant Net	1.2m x 100m - 50mm x 50mm	NET251

For those looking for a smaller mesh for better protection from birds etc, we recommend below. Not suitable for deer exclusion

Netting Type	Dimensions	Code
Bird exclusion/ fruit protection netting	1.8m x 100m 19mm x 19mm	NET235
Bird exclusion/ fruit protection netting	1.2m x 100m 19mm x 19mm	NET220

Suitable for many other applications. Such as pheasant pens, fruit protection, vegetable and shrub protection, pool/pond netting.

## CLIPEX® Posts

Clipex® the multi award winning innovative permanent quick clip galvanised steel posts. Clipex® posts are **STRONGER, FASTER, and EASIER** to install. They are more secure and need less maintenance. Each post holds the wire firmly in place with a spring-loaded clip, which means no fiddly parts to lose or fit.

These clips allow lateral flex but very little vertical wire movement is possible, which is important when downward pressure is put on the fence line. Every post has a pre-fixed anti-lift plate below ground level to prevent lifting in soft or undulating ground. Clipex® posts come in two profiles and five lengths to suit many applications.

**Clipex®  
Standard Post**  
1.8m - CL2715

**Clipex®  
Beefy Post**  
2.0m - CL2720

## Line Wire

High Tensile XTRALIFE Alu/Zinc Coated

Gauge	Approx. Length	Code
2.50mm	651m	F2142
3.15mm	410m	F2147

- Tensile strength : 1250 -1350 (N/mm2)
- Coating weight : min 240g/m2
- Wire diameter tolerance : +/-0.04(mm)
- Coil ID / Coil OD : 570 mm / 730 mm approx.
- Alu/Zinc coating which exceeds BSEN 10244-2 Class A

## High Tensile Line Wire

Gauge	Approx. Length	Code
2.00mm	1017m	F2104
2.50mm	651m	F2140
3.15mm	410m	F2145
4.00mm	254m	F2150

- Specifications as above
- Heavily galvanised to BSEN 10244-2 Class A

## Mild Line Wire

Gauge	Approx. Length	Code
1.89mm	1190m	F2102
2.50mm	651m	F2115
3.15mm	410m	F2120
4.00mm	254m	F2125

- Tensile strength : 350 -550 (N/mm2)
- Coating weight : min 240g/m2
- Wire diameter tolerance : +/-0.04(mm)
- Coil ID / Coil OD : 570 mm / 730 mm approx
- Heavily galvanised to BSEN 10244-2 Class A

## Tying Wire

- Flexible, easy to work with
- Galvanised for long life protection
- Approximately 100m

- Protected against corrosion
- Hot-dip galvanised with added layer of green plastic
- Approximately 100m

Wire	Gauge	Coil Length	Code
Galvanised	1.60mm	100m	CL4219
PVC	1.60mm/2.50mm	100m	CL4220

## The Reel Wire - Bobbins

- Tensile strength : 1235 -1390 (N/mm2)
- Coating weight : min 240g/m2
- Wire diameter tolerance : +/-0.04(mm)
- Heavily galvanised to BSEN 10244-2 Class A

Gauge	Coil Length	Code
2.50mm	600m	F2141
3.15mm	400m	F2144

## Aviary Mesh

13x13mm

25x13mm

25x25mm

- Ideal solution for bird, rabbit and rodent enclosures
- Also suitable for domestic and farm fencing of small mammals
- Stronger than traditional hexagonal mesh
- Hot-dip galvanised for longer life

Mesh	Gauge	Height	Code
13x13mm	1.0mm	900mm	F9300
		1200mm	F9338
25x13mm	1.0mm	900mm	F9325

25x25mm	1.0mm	900mm	F9320
	1.6mm	900mm	F9310
		1200mm	F9340
		1800mm	F9345
	2.00mm	900mm	F9308

## Barbed Wire

## F2015

High Tensile Alu/Zinc

- 2.0mm wire gauge
- Manufactured to BSEN 10223-1
- Alu/Zinc coating exceeds to BSEN 10244-2 Class A

## F2014

High Tensile Galvanised

- 2.0mm wire gauge
- Manufactured to BSEN 10223-1
- Galvanised to BSEN 10244-2 Class A

## F2013

High Tensile BLACKMAX Bezinal

- 2.0mm wire gauge
- Manufactured to BSEN 10223-1
- Exceeds BSEN 10244-2 Class A

## F2010

High Tensile Light

- 1.6mm wire gauge
- Manufactured to BS EN 10223-1
- Heavily galvanised to BSEN 10244-2

## F2000

Mild Steel

- 2.5mm wire gauge
- Manufactured to BS EN 10223-1
- Heavily galvanised to BSEN 10244-2

Barb Wire Type	Line wire dia & Tensile Strength	Barb dia & Tensile Strength	Length	Code
Alu/Zinc	2.0mm dia - 1050-1250 N/mm²	1.9mm dia - 440-540 N/mm²	200m	F2015
Heavy Galvanised	2.0mm dia - 1050-1250 N/mm²	1.9mm dia - 440-540 N/mm²	200m	F2014
* Bezinal Black Tipped	2.0mm dia - 1050-1250 N/mm²	1.9mm dia - 440-540 N/mm²	500m	F2013
High Tensile Light	1.6mm dia - 1050-1200 N/mm²	1.45mm dia - 415-495 N/mm²	200m	F2010
Galvanised Mild Steel	2.5mm dia - 415-495 N/mm²	2.0mm dia - 415-495 N/mm²	200m	F2000

## \* Black Benzinal Barbs, why?

They are three times more resistant to rust due to its unique outer black Benzinal coated barbs, as the barbs come into livestock contact they are better treated for a longer life.

Concertina Barbed Wire Tape  
F2021

## "Protect your premises, instantly"

Razor wire is effective as a secondary line of defence, widely used by many businesses to prevent unauthorised access.

- Outer Dia. coil 450mm (18")
- Length/Coil : 10m
- Wire Dia. 2.5mm
- Razor Centre Distance 35mm
- Razor Thickness : 0.5mm
- Razor Length : 20mm

The property owner needs to ensure the use of barbed tape does not infringe criminal or civil law

## Hexagonal Wire

Hexagonal wire, also known as hexagonal mesh, Chicken or Rabbit wire, is a versatile and widely-used fencing material with a characteristic hexagonal pattern. It is made from galvanized steel wire, creating a flexible and durable mesh. This type of wire has a wide range of applications due to its unique properties and benefits.

### Some of the primary uses of hexagonal wire:

- 1. Garden Fencing:** Hexagonal wire is commonly used in gardening and landscaping to create protective enclosures for gardens, flowerbeds, and vegetable patches.
- 2. Rabbit Fencing:** Farmers use hexagonal wire to protect crops, often burying to prevent digging, heavier gauge netting is recommended.
- 3. Poultry and Pheasant Enclosures:** Hexagonal wire is widely used in poultry and pheasant enclosures, either one piece or more common is a smaller mesh half way with a larger mesh top net, providing a height of over 1.8m.
- 4. Small Animal Cages and Enclosures:** Hexagonal wire is used to build cages and enclosures for small pets like rabbits, guinea pigs, and birds. The wire mesh offers a safe and well-ventilated living space for these animals.
- 5. Tree Guards:** Hexagonal wire is used to protect young saplings from rabbits and deer.
- 6. Bird Protection:** Hexagonal wire with a finer mesh is utilized as eave protection, preventing birds, squirrels from entering gaps and vents.
- 7. Decorative Applications:** Beyond practical uses, hexagonal wire is sometimes utilized for decorative purposes. It can be incorporated into artistic installations, sculptures, and garden features to add an intriguing and unique aesthetic.

Overall, hexagonal wire's versatility, durability, and relatively low cost makes it a popular choice for a wide range of applications, from agricultural and gardening needs to civil engineering projects and creative endeavours.

### McVeigh Parker stock two types

**Fortress Super 6** – Is our premium hexagonal super 6 netting offering exceptional durability and versatility. Unlike light galvanized netting, this super 6 hexagonal wire boasts an impressive six times longer lifespan. Hot dip galvanised after manufacture gives it great corrosive resistance. If you are looking for the best longest lasting hexagonal netting then super 6 should be your wire of choice, giving far greater return on your investment.

**Fortress Value** – Is our competitively priced range of hexagonal wire netting suitable for many projects, ideal for those working on a tight budget prioritizing cost-effectiveness and affordability over long term durability.

### Rabbit Hexagonal Wire

**LASTS UP TO 6X LONGER THAN LIGHT GALVANISED WIRE**

- 50m rolls
- Tensile strength 350-450 N/mm<sup>2</sup>
- Heavy galvanised to BS EN 10224-2
- Hot dip galvanised after manufacture

Height	Mesh	Gauge	Application	Code
1050mm	31mm	1.2mm (18g)		F1G3230
1200mm	31mm	1.2mm (18g)		F1G3250

*Best return on investment*

- 50m rolls
- Tensile strength 350-450 N/mm<sup>2</sup>
- Pre-galvanised finish

1800mm	50mm	1.0mm (19g)		F1C3400

Sizes and gauges are meant as a guide, comparable to market standards and tolerances.

## Did you know?

We also stock and supply line wire, netting pliers, clips and fixings, timber or steel posts. Combining hexagonal wire with Clipex® steel posts will give you a fast, easy to erect fence. Using Clipex® steel posts for poultry or pheasant pens allows you to relocate the pens easily, should you wish to provide fresh foraging areas and maintain a healthy environment for your birds.

Fresh ground reduces the build-up of faeces and waste, which can help prevent the spread of diseases and parasites. Plus the posts are recyclable at the end of their life.

## Security Fencing

Keep your land, property or business safe with our security fencing. We stock a wide range, so whether your application is industrial, commercial or agricultural, we will have a security fencing system suitable for your requirements. Palisade, Meshed Panels, Chain Link and Welded Mesh are all available.

## Meshed Panels

### VMEX V3 Mesh Panels

#### Features

- Compliant to BS 1722 pt.14
- M8 security fixings
- Top flat section of panel allows easier stepping of mesh
- Standard colours Green RAL 6005 + Black RAL9005
- Polyester Powder Coated to a choice of colours
- Height - 1200mm, 1800mm, 2000mm, 2400mm, 3000mm
- Wire Diameter - 4mm verticals & 5mm horizontals

#### Suitable for:

- Commercial Development
- New Build Housing
- Hospitals

**Cost effective  
perimeter fence**

### ZEBEX Z3 Mesh Panels

#### Features

- Compliant to BS 1722 pt.14
- M8 security fixings
- Choice of colours available
- Height - 1800mm
- Wire Diameter - 4mm verticals & 4mm horizontals

#### Suitable for:

- Commercial Business
- Recreation Areas
- Hospitals
- Airports
- Multi Storey Car Parks

**Most popular  
perimeter fence**

### Duex Mesh Panels

#### Features

- Compliant to BS 1722 pt.14
- M8 security fixings
- Rigid double wire design
- Polyester Powder Coated to a choice of colours
- Heights - 1230mm, 1830mm, 2030mm, 2430mm, 3030mm
- Wire Diameter - 6mm verticals & twin 8mm horizontals

#### Suitable for:

- Schools, Colleges & Universities
- Commercial Premises
- Industrial Units
- Theme Parks

**Also available as  
868 rebound fencing.  
Ideal for sports  
grounds and zoo's**

### Bow Top Railings

#### Features

- Compliant with BS 1722 Pt. 9
- Security Fixings
- Stepping Cleats
- Welded Construction
- Hot Dip Galvanised to BS EN ISO 1461
- Polyester Powder Coated option
- Various Designs Available

#### Suitable for:

- Recreation Areas
- Schools
- New Build Housing

### Steel Palisade

#### Features

- Hot Dip Galvanised
- Sturdy And Secure Fencing Solution
- Components Supplied Loose For Easy On-Site Construction
- W Profile, Triple Point
- Available In Various Profiles, Gauges And Finishes

#### Suitable for:

- MOD
- Police Stations
- Secure Units
- Airports
- Hospitals
- Schools
- Utility Suppliers

### 358 Mesh

#### Features

- Compliant With BS 1722 Pt. 14
- Security Fixings
- Anti-Climb Fence
- Panel Heights Available Up To 5.2m
- Polyester Powder Coated
- Suitable For Many Applications
- Narrow Apertures Very Secure

#### Suitable for:

- MOD
- Police Stations
- Secure Units
- Airports
- Hospitals
- Schools
- Utility Suppliers

### Vertical Bar Railings

#### Features

- Compliant with BS 1722 Pt. 9
- Security Fixings
- Stepping Cleats
- Welded Construction
- Hot Dip Galvanised to BS EN ISO 1461
- Polyester Powder Coated Option
- Various Designs Available

#### Suitable for:

- Perimeter Fencing
- Retail Outlets
- Commercial Business
- New Build Housing

## STRENGTH AND SECURITY

Suitable for use in fixing all types of wooden, metal and concrete posts

Kiln dried, pre-blended, factory-produced quick setting concrete

Hardens in approximately 10 minutes after water addition, depending on ambient conditions

**Special rates on pallet, half load, full load rates, contact us**

## Chain Link

### Chain Link Galvanised

- Galvanised mild steel woven and galvanised to BSEN10244-2.
- Manufactured to BSEN1722-1 2006.

### Green PVC Chain Link

- Green PVC coated finish RAL6055
- Manufactured with Galvanised Grade 2 Core Wire
- Rolls come complete with 52m green linewire (900 & 1200mm)
- 78m green linewire (1400 & 1800mm)

### High Tensile Chain Link

Commonly known as Super 70 or Dragon HT is over twice the strength of traditional chain link, it has a smaller mesh pattern for greater security and rigidity.

Most commonly used on railways.

Gauge	Mesh	Length	Height	Code
2.50mm (Standard)	50mm	25m	900mm	CL1100
			1200mm	CL1105
			1800mm	CL1120
			2400mm	CL1165
3.0mm (Heavy)	50mm	25m	900mm	CL1130
			1200mm	CL1135
		12.5m	1800mm	CL1150
			2400mm	CL1165

Gauge	Length	Mesh	Height	Code
2.24/ 3.15mm	12.5m	50mm	2400mm	CL1250
	25m		900mm	CL1225
			1200mm	CL1230
			1400mm	CL1235
			1800mm	CL1245

Gauge	Length	Mesh	Height	Code
3.0mm	12.5m	40mm	1.4m	CL1215
			1.8m	CL1220

Coated with zinc, aluminium, magnesium with a green anti-corrosion barrier giving enhanced protection which lasts five times longer than heavily galvanised wire to BS EN 10244-2 class A

## Welded Mesh

### Welded Mesh Galvanised

- Self-supporting, strong long lasting netting
- Ideal for numerous uses, security fencing
- Dog compounds, poultry pens & tree guards
- Electro welded uniform mesh pattern joints
- Heavily galvanised coating to BS 443

Gauge	Length	Mesh	Height	Code
2.50mm	25m	50x50mm	900mm	F9100
			1200mm	F9110
			1400mm	F9120
			1800mm	F9145
3.0mm	25m	50x50mm	900mm	F9105
			1200mm	F9115
			1400mm	F9125
			1800mm	F9150

### Welded Mesh PVC Coated

- Self supporting, strong PVC coated mesh
- Ideal for perimeter fencing, less visual impact
- Green PVC coated finish RAL6055
- Black available

Gauge	Length	Mesh	Height	Code
2.5/3mm	25m	50x50mm	900mm	F9178
			1200mm	F9179
			1400mm	F9185
			1800mm	F9180

## Timber Fencing

Whether you're repairing an existing fence or building a new one, we stock a wide range of posts and stakes, post and rail kits, stud rail horse fencing, including posts, struts and strainers. All our timber is supplied by fully FSC certified producers from carefully managed forests, all softwood timber is treated to BS8417.

### What timber products are available at McVeigh Parker?

Pressure treated pine stakes, sawn posts, rails, strainers and boards.

Pressure creosoted pine stakes, rails, sawn posts, strainers and rails.

Sweet chestnut stakes, strainers and cleft posts and rails.

DURA<sup>2</sup> pine pressure treated stakes, rails, strainers

**Pressure treated to BS8417** with a water based wood preservative that contains copper and proven organic biocides. Typical desired life on UC4 treated timber is 15 years.

**Kiln dried** to an adequate moisture content in line with BS8417.

**The British standards** BS8417 state timber longevity as "Desired service life". The desired service life does not provide a guarantee, but merely an indication of the expected performance of the product.

**The BSEN 335** defines User classes which lists desired service life of treated timber and is intended as a guide only, the purchaser must decide whether the product is suitable for their particular purpose.

McVeigh Parker stock only UC4 **pine in-ground contact timber**.

Use Class 4 - external timbers used in ground or fresh-water contact.

**Slow grown timber** Scots Pine (Pinus Sylvestris), larch or similar redwood only.

This slower grown timber creates a denser wood with higher mechanical properties.

**Stick layered packs** to give quicker drying and better treatment penetration.

**Identification** marked for proof of manufacturer and full traceability.

**Colour** Pressure treated timber has an initial natural green colouration. Once exposed to air, the green colour slowly weathers to a golden brown and in the longer term becomes a natural silver grey.

DURA<sup>2</sup> starts off almost black slowly ageing to dark brown.

For full details on all our timber, please check out our full timber guide online or ask one of our knowledgeable team who will be happy to help.

**Source:** All our timber is sourced from carefully managed forests and produced by FSC/PEFC certificated producers.

## DURA<sup>2</sup> Fencing

DURA<sup>2</sup> is the patented production process which is sustainable, environmentally friendly and the cost effective alternative to creosoted timber.

This new process extends the life span of the timber to 20 years and more. DURA<sup>2</sup> is the answer for those looking for a longer lasting timber fence with an attractive appearance. Guaranteed for 20 years.

The unique DURA<sup>2</sup> timber procedure starts with timber selection, with wood carefully selected from sustainable woodlands. Once felled it goes through an initial controlled drying process, then impregnated to saturation point with the improved treatment agent.

After the first treatment the timber goes through a deep drying process, then retreated once again.

This double treatment process provides the strongest protection and the most durable treated softwood timber for fencing.

This unique technique creates a fence timber of the highest quality. In addition, the wood gets a chic look due to the dark colouring without any unpleasant odours or carcinogenic properties.

**DURA<sup>2</sup> EndSeal** protects the exposed cut surfaces in your wood from water, mould and insect decay as well as UV, ageing and moisture in overground applications.

Dura<sup>2</sup> Endseal paint available in 750ml cans F5800

### Benefits of using DURA<sup>2</sup> Timber

- Pedigree durable product.
- Controlled drying process.
- Safe to both livestock and humans, no leaching.
- Produced from slow grown European pinewood only.
- Timber treated twice with deep drying between the two treatments.
- Pressure treated with a high concentrate.
- DURA<sup>2</sup> is an enhanced and patented treatment process using Tanalith E preservative.
- DURA<sup>2</sup> has the appearance of creosoted timber without the smell or carcinogenic properties.
- Homogenous dark brown chic colour.
- 20 year manufacturer's warranty.

Click link to view full DURA<sup>2</sup> range

Check out the DURA<sup>2</sup> spec sheet. Click link above

Initially stocked in certain sizes, however larger projects and full artic loads are available, contact us with your requirements. Stockist, trade and contractor rates available.

### DURA<sup>2</sup> TIMBER RANGE

#### Fencing stake/Strut

* 1.65m x 90mm pointed	F5820
* 1.8m x 90mm pointed	F5825
* 2.5m x 90mm pointed	F5830

McVeigh Parker have been supplying traditional fencing timber since 1979. With over one million stakes sold annually, we are confident we can provide you with quality products, at the right price, treated to the correct user class, for your next fencing project. We have a range of timber and post stakes for use as part of your traditional timber fencing project. Fencing struts and stakes with a mix of creosoted strainers are available in sizes to suit your needs.

## DURA<sup>2</sup> TREATED TIMBER

HIGH QUALITY FENCING TIMBER

DURA<sup>2</sup>® is synonymous with quality performance across Europe thanks to a patented enhance high pressured treatment base of Tanalith-E®

- Pedigree durable product.
- Controlled drying process.
- Safe to both livestock and humans, no leaching.
- Produced from slow grown European pinewood only.
- Homogenous dark brown chic colour.
- 20 year manufacturer's warranty.

See pages 36-37 for more details

## Post & Rail Fencing

Timber post and rail is an iconic sight in the British landscape, both attractive and functional. Often used for paddock fencing, livestock management and roadside fencing as well as an aesthetic look for domestic properties. We stock a wide range of traditional timber post and rail options for both domestic and agricultural purposes.

The number of rails and the spacing between posts can vary depending on the intended purpose, visual preferences, and the type of animals being contained.

### Half Round

Cundy half round rails, slight irregular appearance.

*Rails - 3.66m x 100/125mm face*

*Stakes - Half round 1.8m, 2.1m, 125/150mm face*

*Full round 1.8m, 2.1m, 2.4m, 100/125 dia*

**Available in pressure treated green,  
UC4 pine for all in ground contact timber.**

### Machined Half Round

Machined half round fencing creates a more uniform neat appearance.

*Rails - 3.60m x 100mm face*

*Stakes - Half round 1.8m, 2.1m, 110mm face*

*Full round 1.8m, 2.1m, 2.4m, 100mm, 125mm dia*

*Sawn 1.8m, 2.1m, 2.4m x 125mm x 75mm  
posts can also be a suitable combination.*

**Available in pressure treated green,  
Pressure creosoted and DURA<sup>2</sup> (in select sizes)  
UC4 pine for all in ground contact timber**

3 rail with sawn morticed posts

### Riven Chestnut Post & Rail

This is a traditional and durable type of fence construction that uses cleft (split) chestnut of irregular shapes which give it a unique handcrafted rustic appearance. Produced from sustainable coppiced UK woodlands.

For those looking for a more symmetrical appearance combine sawn morticed posts with cleft rails.

*Rails - 2.7m x irregular profile of approx.  
325-350mm girth, scarf ended. Chestnut*

*Posts - 2.0m x 180-210mm cleft face, twin  
morticed to suit two or three rail.*

*Chestnut 2.1m x 125mm x 100mm, twin  
morticed to suit two or three rail. Sawn treated*

**Available in all chestnut  
(no treatment required)  
or pressure treated sawn posts**

(rustic style)

2 rail with  
riven chestnut  
morticed posts

### Sawn (Motorway) Post & Rail

Sawn finish timber most commonly seen along motorways.

*Rails - 3.60m x 88mm  
or 100mm x 38mm or 47mm profile*

*Posts - 1.8m, 2.1m, 2.4m x 125mm  
or 150mm x 75mm, four way pointed*

**Available in pressure treated green,  
Pressure creosoted and DURA<sup>2</sup> (in select sizes)  
UC4 pine for all in ground contact timber.**

### Post and Wire Combinations

We can supply various combinations using posts with top rail and X fence wire infill.

**Contact us for more details,  
advice and a quote.**

### Did You Know?

You can extend the life and protect your fence from livestock damage by simply adding cost effective insulators to your fence. We supply a wide range of offset electric insulators, tape, rope and wire.

## Domestic Fencing

Our garden fencing stock includes panel fencing, fence kits and wattle hurdles. Our attractive domestic fencing range is perfect for gardens, roadside areas or as screening.

### Panel Garden Fencing

#### Feather Edge Panels

- Pressure treated softwood for longlife (not dipped)
- Fully framed
- Heavy more durable construction
- Easy to install, suitable for timber or slotted concrete posts. Just add quick mix cement

Size	Code
900mm x 1830mm (3' x 6')	F6112
1200mm x 1830mm (4' x 6')	F6114
1500mm x 1830mm (5' x 6')	F6115
1650mm x 1830mm (5'4" x 6')	F61156
1800mm x 1830mm (6' x 6')	F6116

#### Waney Edge Panels

- Pressure treated softwood for longlife (not dipped)
- Fully framed
- More cost effective panel option
- Easy to install, suitable for timber or slotted concrete posts. Just add quick mix cement

Size	Code
900mm x 1830mm (3' x 6')	F6103
1200mm x 1830mm (4' x 6')	F6104
1500mm x 1830mm (5' x 6')	F6105
1650mm x 1830mm (5'4" x 6')	F61056
1800mm x 1830mm (6' x 6')	F6106

### Garden Fence Posts & Fittings

#### Panel Posts

- All sawn post sizes available on page 38-40

Size	Code
1800mm x 100mm x 100mm	F8110
2400mm x 100mm x 100mm	F8160
2700mm x 125mm x 100mm	F8173

#### Fence Post Panel Clips

Size	Code
50mm	A2725

#### Post Anchor Supports

Size	Code
750 x 50 x 50mm to drive	A2713
700 x 100 x 100mm to drive	A2710
600 x 75 x 75mm to drive	A2700

#### Fence Post Bolt Down Anchor

Size	Code
75 x 75mm	A2715
100 x 100mm	A2720

### Hazel Wattle Hurdles

A product crafted with care and dedication from sustainable coppiced woodland.

Embracing tradition while ensuring a greener future, these hurdles are not just fences but symbols of environmental responsibility.

Approximate 3 to 5 year life expectancy for wattle hurdles

Sizes	Code
1200mm x 1800mm	F6124
1500mm x 1800mm	F6125
1800mm x 1800mm	F6126

### Closeboard Gates

Our closeboard garden gate is a strong and durable option to protect your land. Made from responsibly sourced timber from well managed forests, this garden gate can be left or right side hung and adds a complementary finish to your closeboard fencing.

Sizes	Code
900mm x 1800mm	WG870
900mm x 1750mm Heavy Duty	WG878
1200mm x 1750mm Heavy Duty	WG879

### Closeboard Components

#### Arris Rail - Scarfed Ended

- Used as support rails for closeboard/feather edge fencing or timber palisade/pale fencing
- Manufactured from pressure treated softwood timber

#### Arris Rail - Plain Ended

- Triangular shaped horizontal rails to pin the feather edge boards to flat ends and can be attached to the posts using arris rail brackets
- Strengthens the system and enhances the style

#### Arris Rail Fixing Bracket F6261

- Used to fix arris rails to wooden support posts
- Ideal for new fences and easy repairs
- Manufactured from galvanised steel
- 285mm (L)

#### Counter Rail

- Counter rails are added to the top of the fence to provide support

## Instruction guide for fence post installation

Use the guide below to help you with your fence post installation.

1

Calculate the hole size needed for the fence post. This depends on post height and style of fence.

2

Fence posts can be set in concrete or soil with a 50mm ballast bed (see Fig 1 & 2), which will allow good drainage around the post base.

3

It is recommended 1/3 of fence post height is placed into hole for added stability.

4

Fence posts should not be placed on top of concrete (see Fig 4). It will prevent post drainage and will lead to early failure under some weather conditions.

5

Concrete should be poured 50mm from ground line.

6

7

The remaining part of the hole should be filled with ballast or gravel to allow post drainage. This will also restrict weed growth at post base which can cause damage.

An alternative fence post installation guide can be seen in Fig 3.

Use illustrations below with the guide above to further assist with installation

Browse our selection of horse gates which provide secure, easy access to equestrian paddocks or fields, along with our self-closing bridle gates perfect for bridle ways. We also supply horse friendly gate fittings perfect for both horse and rider.

## Equine Electric

Electric fencing is used to protect paddocks and your post and rail. We supply PVC stud rail, Equifence hot line and our market leading X Fence horse netting. Combine any of these with UC4, DURA<sup>2</sup> or creosoted timber for a longer maintenance free life.

## Stokbord

Stokbord is a general purpose durable board, ideal for use with horses and other livestock thanks to its chew-proof non-toxic nature. Whether you are looking to create a lunging pen, line your stable or clad your horse-walker, Stokbord is multi-purpose & maintenance free.

## Riding Arenas

Our riding arena kit is designed to provide all you need to construct your own horse riding arena including rail fencing, retaining boards, softwood gates, spun and woven membrane, perforated land drainage to ensure adequate drainage for functionality in all weather and all the fittings required. All you will need to complete is your own choice of hardcore or toppings.

## Stable Supplies

Our stable supplies include horse feeders and drinkers, stable mats and stable lining, wheelbarrows and grass protection mats. McVeigh Parker has been providing premium quality equestrian supplies since 1979 that have all been specifically selected by our equestrian experts.

From stable mats to storage bins and all material integral to building a riding arena, we pride ourselves on our industry knowledge, commitment and expertise.

## Equestrian Fencing

Equestrian fencing comes in many forms. We stock the ever popular traditional post and rail in various profiles. Half round, sawn, pressure treated, creosoted softwood, DURA<sup>2</sup> treated softwood or riven chestnut. Combine with X fence horse netting for added security. Available in a wide range of sizes to suit various budgets and requirements.

- 3 x 4.5m x 100m fibre 140 membrane, standard
- 1 x 3.6m Softwood treated heavy bottom rail gate
- 1 x Horse friendly auto catch & striker
- 1 x Hinge Set 600mm Adj B/Hinge P/Pack Galv
- 2 x Class 4 2.4m x 175mm x 175mm Treated Post

Optional upgrade extras available such as DURA<sup>2</sup>  
Other sizes available please contact us to discuss your requirements

### TurboStar Equifence 250m EF3031

- The safest and most durable wire for horses with a 10 year guarantee
- Optimal conductive plastic cable with a 2.7 mm galvanised wire core
- No oxidation because of plastic/carbon covering
- Highly visible because of 7.5 mm diameter
- Available in terra and white
- 250m roll

### Stud Rail

Studrail is a cost effective polyethylene & high tensile wire bonded rail

Colour	Width	Code	
B= Brown	75mm	F2501 B	F2500 W
W= White	100mm	F2503 B	F2502 W
100m Roll			

### Horse Rail

Horse rail is manufactured from high-quality medium density polyethylene that won't fade, splinter or shatter. Highly Conductive Carbon Compound strip can be electrified, encompasses 2 or 3 high tensile 2.5mm wires.

Available in brown, black and white

**Hot-Top 2 line -**  
Top line can be electrified

**Hot-Top 3 line -**  
Top line can be electrified

**Hot-Top plus 3 line -**  
Top & bottom can be electrified

## Feed Storage

### Feed Bins

Capacity	Partition	Code
630L	1 (2 Sections)	TC6340
840L	2 (3 Sections)	TC6370

### JFC Feed Storage Bin JFCCMB05

Strong & durable feed storage bin with a low profile for ease of access when filling & emptying. The Easy Empty Cubic Metre Bin also tilts for easy access & has a smooth interior base without crevices for ease of emptying with a standard bucket.

## Stable Mats

### Rubber Ring Mat TH5105

- 1.5m x 1.0m x 23mm
- 25mm holes allow efficient drainage
- Resistant to all weather and extreme temperatures

### Rubber Stable Mat TH5100

These hard wearing natural rubber mats are grooved one side and dimpled the other. They provide higher hygiene and better cushioning as well as thermal insulating properties.

- Mat Size: 1.8m x 1.2m x 17mm

## Stable Lining

### Stokbord

Thickness	Sheet Size	Code
3mm	2440mm x 1220mm	F6002
6mm		F6000

## Windbreak Netting

Reinforced edges for a stronger longer lasting windbreak

### General Purpose Windbreak Netting

Available in black or green.

This windbreak provides an effective protection for plants, shrubs and livestock.

**Mesh Pattern: 15x4mm**

Height	Length	Colour	Code
1m	30m	Green	NET100

Bayscreens

Rollerscreens

Agridoor

### Bayscreens

- Suitable for permanent fixing of infrequent access
- Quick to install and remove
- Offers weather protection but allows ventilation
- Flame retardant
- Tear and fray resistant material
- Rot proof
- Designed to clip onto bays or wider spans up to 20m

### Rollerscreens

- Designed for regular access
- Rapid opening mechanism
- Offers weather protection and variable ventilation
- Fully adjustable to fit opening
- Complies with EC door directive EN-13241
- Heavy duty spring allows fast access with a locking mechanism to stabilise against wind pressure

### Agridoor

- Fully adjustable to fit
- High speed chain drive
- Steel wind bars
- Replacement panels
- Complies with EC door directive EN-13241
- Ideally suited to grain stores and bulk feed stores
- Suitable for installing on the inside or outside of buildings

Call us today for more information and to book your **FREE** site consultation

## Hay Feeders

### JFC Haybell

JFCHB01

- Designed to fit over a standard round bale.
- Manufactured from robust polyethylene it has no metal components making it extremely safe for use with animals.
- Designed with 4 feeding ports it enables 4 horses to feed simultaneously.

### Hay Soaker

JFCHS1

- Capacity: 300L
- Dimensions: 1200L x 600W x 800H
- Swivel Wheels: 1 for optimal maneuverability
- Drain Feature: DOF1 fitted for easy water drainage

## Trailers & Wheelbarrows

### JFC Tip Assist Trailer

JFCATV500TA

- Gas strut to assist with load tipping.
- Metal support frame capable of handling heavy loads up to 500kg.
- Robust polyethylene body mounted on a galvanized metal frame.
- Equipped with a lever ball hitch.
- Protective steel plate on the front lip to prevent damage from impacts.
- Strong hinge point for effective load tipping.
- Two roller bearing 4-ply pneumatic wheels.

### Tipping Wheelbarrow 250 litre capacity

JFCTWB5

- Twin wheeled with bearings
- Hot dip galvanised chassis
- Heavy duty moulded plastic pan

### Tipping Trailer - 250 & 500 litre capacity

JFCTL

- Ideal for large gardens & estates
- Great for golf courses & parks
- Tows easily behind an ATV
- x2 sizes

### Twin Wheelbarrow - 250 litre capacity

JFCTWB

- 1800 x 865 x 720mm
- Galvanised frame and polyethylene body ensures a long-life span.
- Replacement wheels and handle grips available.
- Twin puncture proof tyres

### JFC ATV Fertiliser Spreader (Manual Control)

JFCATVS500M

- Suitable for operation on sloping and mountainous terrain due to its low centre of gravity and wide wheelbase
- Large hopper capable of transporting and spreading up to 500kg of most fertiliser types.
- The spreader has a 12m spreading width running at 15km/hr

Gates

65

**Our wooden gates,  
hand crafted in the UK**

## Wooden Gates

Our wooden entrance gates are suitable for domestic and commercial use. Popular products include our Universal and Yeoman Curved gate which are both available in hardwood and softwood options. We stock a wide range of gates in a wide range of sizes online and in depot.

## Right Of Way Gates

Our range of ROW gates includes a variety of options allowing entry for pedestrians, dogs, wheelchair and mobility vehicle users whilst ensuring your livestock stay secure.

## Bespoke Gateway Products

Our bespoke gate range includes a selection of cattle grids; ideal for providing vehicle access to land whilst preventing the (escape) free movement of cattle and other roaming livestock. For any other bespoke projects contact us.

## Gate Posts

Choosing the right gate post is crucial to ensure the longevity of your gate. Our range includes a selection of posts to ensure stability of your gate.

## Gate Fittings

We stock a comprehensive range of heavy duty gate fittings to suit metal and wooden gates, whether you are installing a smaller entrance gate or a large metal field gate. We have a closing or hanging fitting to suit.

**We stock thousands of gates to suit all purposes, domestic, commercial, industrial and agricultural. Deer gates, farm gates, metal and wooden gates through to ROW gates. We also stock heavy-duty fittings to work across our whole range. Our gates are all high quality and provide a good level of security. We even offer made-to-measure bespoke garden gates and cattle-gates, so you can ensure the perfect fit every time.**

## Metal Farm Gates

From field to farm, from stable to yard we have a metal gate to suit various applications. We have a made to measure service for livestock systems and bespoke projects.

**To view the complete McVeigh Parker gate product range simply click the link to the right. ►**

Or use the following URL:

88.9mm x 2000mm	GPA1G
114.3mm x 2000mm	GPA2G

## Deer Gates & Posts

Ideal for deer fencing and deer enclosures, the deer gates we have to offer are the very best choice for reliability and strength. Our deer gates provide you with a secure entry and exit point to your deer fencing without weakening the enclosure. All of our metal deer gates are fully meshed and have universal hanging with a central sliding bolt and with the option of metal or wooden posts depending on preference.

### Wooden Deer Gate

- Made to measure
- Features morticed joints for added strength & optional heavy bottom rail for extra rigidity
- Available in lengths up to 3600mm long

### Fully Meshed Deer Gate

- Suitable for containing or excluding deer
- 1860mm high, 75mm mesh cladding and lockable sliding bolt
- Fully galvanised to BS EN ISO 1461
- It is available in lengths from 0.6m (1'9") – 4.88m (16'0")
- Can be hung as pairs

## Deer Post Options

Post	Dimensions	Details	Code
Slotted deer post	2.59m x 114mm	Slotted latch post	GPSDG2G
Hanging deer post	3.05m x 114mm	c/w 16mm base hole for re-bar reinforcement	GPHDG2G
Wooden gate post	3m x 175mm x 175mm		WGP383

## Lagoon Security Gates

The Lagoon Gate is a 3 railed gate clad with 50 x 50 x 4mm welded mesh with extensions for barbed wire. It is 1270mm (4'1") high and supplied with a padlockable sliding bolt. It is hot dipped galvanised to ensure a maintenance free life.

- 3 railed gate clad with welded mesh with extensions for barbed wire
- Available in a variety of sizes
- A made to order item

## Right Of Way Gates

### Woodstock Pedestrian Kissing Gate

- Height - 1.0m - 1.2m
- Maximum length in the fenceline - 2.0m
- Width across the hoops - 1.2m

Size	Code
Plain Hoops	RW38
Meshed Hoops	RW39

### Braemar Deer Gate

- Easy to install, unit comes in one piece.
- The H-frame provides the whole system with rigidity and ensures the gate leaf is always correctly aligned with the frame
- When in the closed position, the gate is secured using an Easy Latch
- The gate will automatically self close. From fully open in approximately 3 seconds using the offset self-closing hinges

#### Features

- Access for pedestrians
- Access for horse riders
- Overall installed height - 1900mm
- Overall post to post - 1925mm
- Gate leaf - 1570mm wide x 1870mm high

### Mobility Friendly Meshed Medium Woodstock Gate

- Allows easy manual wheelchair and standard pushchair access
- Fully stock proof in both directions
- Easy to install

## Large Size Available On Request

### 1.2m Woodstock Railed Hoops Self Closing

- Railed hoops
- Integral H frame posts
- Wheelchair access

### Deer Kissing Gate

Galvanised steel hoops, H-Frame, strengthening bar gate with self closing gate system.

Circular hoops give easy access for pedestrians. H-Frame and strengthening bar provide rigidity and ease of installation. Height and appearance make it suitable for both forestry and parkland situations.

### 3.66m Bristol 2 in 1 Combination Gates

RW40

Bristol 2 in 1 gate allows pedestrians to be able to pass through the self-closing step gate, the field gate can remain closed or even locked if required.

#### STANDARD HAND GATE

#### OPPOSITE HAND GATE

Please note - this item is made to order

### Hingeless Barrier Gate

Offering all security features of a rectangular or triangular barrier gate, manufactured from 100 x 50 RHS but with the addition of 'hingeless' opening system making the gate less susceptible to vandalism.

### Heavy Duty Triangular Vehicle Barrier

Manufactured from 100mm x 50mm RHS and hot dipped galvanised after manufacture.

The PADDOCK SECURITY BOX system is incorporated into the slam post thus allowing the barrier to be used either left or right handed.

### Motorbike Inhibitors

RW45

Two galvanised tubular panels partly sheeted.

This design has been tested and proved to inhibit motorbikes whilst allowing access to pedestrians and users of most sizes of mobility vehicles.

It is recommended that local users and disabled ramblers are consulted about the siting and the gap that is most suited to them. All mobility users require a level and hard surface through the barrier.

Also available: Polyester Powder Coated in Moss Green or Black.

## Have You Seen?

**Our DURA<sup>2</sup> Fencing range.**

DURA<sup>2</sup> is the patented production process which is sustainable, environmentally friendly, and the cost effective alternative to creosoted timber.

- Available as two or one-way
- Stockproof handle option available
- Complies with BS5709:2018 specs

## 1 Way Self Close Stratford Gate

## RW110

- Height - 1.0m
- Width to post - 0.95m
- Gate leaf - 0.7m

## Aston Bridle Gate

- Extra strong design suitable for all users
- Trombone handle (standard) provides easier access
- Stockproof handle also available as an option

## Chiltern 1.5m Bridle Gate 2 Way

## RW15

- Height - 1.2m
- Width to post - 1.9m
- Gate leaf - 1.5m
- Can be opened from horseback

## Stiles

## Wooden Stile Kit

## WG900

- A traditional two step stile kit with posts rails and steps
- 1.2m wide
- Manufactured from treated softwood

Stile sizes & details available online

## Cattle Grids

## IAE ATV FieldLink TCSATVE

Improve on farm efficiency with IAE's FIELDLINK, designed to eradicate the need for the continuous opening and closing of gates whilst keeping livestock in their desired fields.

## Drop In Style Cattle Grid

Cattle grids, drop-in style, enables the grid to be installed very quickly with no requirements for concreting during installation.

Various sizes and weights available to control sheep, cattle and deer, all made to BS4008:2006.

All drop in grids are hedgehog friendly with an exit ramp fitted as standard.

## Hopkins Cattle Grids

- Hopkins are the original creators of the Quick-Fit Cattle & Deer Grid System
- BRITISH MADE
- Depth of grid 14"/ 355mm
- Ideal for Farm, Estate or Forestry roads or Highways
- All Steelwork Galvanised to BS EN ISO 1461:2022 which supersedes BS EN ISO 1461:2009.
- Supplied with optional and removable stock proof side rails.
- Fast delivery times

Also available the **Traditional Tubular style grid** and **The Additional Protection grid**, suitable for those with sheep or goats, available in 26 ton and 50 ton.

5T Grid - 3T Max Axle Loading (x Standard Cattle Jump 2.69m)

26T Grid - 6.5T Max Axle Loading (x Standard Cattle Jump 2.69m)

50T Grid - 11.5T Max Axle Loading (x Standard Cattle Jump 2.69m)

50T Grid - 11.5T Max Axle Loading (x Standard Deer Jump 4.65m)

196T Grid - Standard BS EN Loadings Highway use (x Standard Cattle Jump 2.69m)

Farming

83

From drinkers to silage wrap,  
we've got you covered.

## Drinking Troughs

We stock a huge range of water troughs in a selection of materials, sizes and profiles to suit your needs, available to buy as standalone troughs, or complete kits.

## Cattle Equipment

From individual to modular systems that help you as you grow your herd, we have all you need, including feeders, cattle handling systems, crushes, calf equipment and a made to measure service available.

## Harvest

We are proud to bring you the very best brands of harvest products all at excellent prices. From Visqueen silage sheets to Cordex twines, net and stretch wrap, we have everything you'll need to help make your harvest run smoothly.

## Livestock Handling

We stock a huge range of farming supplies from sheep trailers to cattle crushes, feeder to races. Whether you're weighing or EID reading, crutching or dagging we have a solution to suit your requirements.

## Stokbord

For a more environmentally friendly alternative to ply, our range of Stokbord recycled plastic sheets offer you a long lasting and hygienic sheet. It is extremely flexible, robust and maintenance free, making it great for poultry and livestock housing and races.

## Sheep Equipment

From weighing products and feeders to sheep hurdles and races we have everything you need to help make sheep handling easier. We stock leading brands like IAE, CLIPEX and WM Ironwork as well as an array of bespoke solutions to specifically meet your requirements.

Click link above  
for CLIPEX  
catalogue

We are a one stop shop for a huge range of farming supplies including livestock handling equipment, feeders, drinking troughs, Stokbord and harvest products to name just a few.

## Cattle Crushes & Handling Equipment

Our cattle crush and handling range includes modular cattle handling systems that allow you to grow your cattle system with your herd and is suited to a variety of cattle breeds

### British Made Cattle Crushes *Over Seven Designs To Choose From*

**Tamar Squeeze Handling Trailer**  
TC42000

- 7340mm (inc draw bar) (L) x 2050mm (inc tyres) (W)
- All galvanised to BSEN ISO 1461

**Super Scoop MK 4.5**  
TC41910

- Restricts the side to side movement of the animal's head
- Provides increased safety for the animal and the operator
- Takes the strain out of tasks such as dosing and ear tagging
- Suitable for a range of IAE crushes

**Calving Hurdle Deluxe**  
TC3250

- Easy access for suckling calf
- Yoke to hold animal in place
- Removable rails

**IAE Rotex**  
Bespoke5

- Superbly convenient portable cattle handling system
- Extremely portable, quickly assembled, and safe
- Semi-circular layout for animal welfare and operative safety

**IAE**  
NEW 800 series  
crush range

cattle crush range

## Cattle Feeders

**Diagonal Feed Fence Panel**  
TC1420

- A well proven feeding system which prevents floor wastage and bullying
- Available with or without timber base
- 4420mm long x 915mm high
- Gate option available on request

**Portable Diagonal Feed Fence Panel (2 in 1 Unit)**  
TC1120

- Panel length options: 3050mm & 4075mm
- Finished height 1375mm
- Option 610mm wide x 345mm deep steel feed trough
- Option 790mm wide x 405mm deep steel feed trough

**Cattle Feed Trough**  
TC6110

- 2740mm (L)
- 420mm (W)
- 190mm (D)

**Bullock Trough Heavy Duty - Galvanised**  
TC6100

- Fully welded for all feed types
- Floor feeding trough with excellent stability
- Heavily galvanised to BSEN ISO1461

**Cattle Feed Ring**  
TC2110

- Manufactured in two sections bolted together
- Durable, tough and resilient

Size	Code
Yearling: 1145mm dia.	TC2140
Standard: 1295mm dia.	TC2110
Heavy Duty: 1450mm dia.	TC2120

**Heavy Duty Tombstone Feeder**  
TC2150

- 2285mm diameter x 1150mm (H) x 670mm deep welded base
- 12 feed spaces
- Also suitable for horses

**Low Level Beef Trough on Legs & Badger Defence Kit**  
TC6140

- 2440mm (L)
- 786mm (W)
- 230mm (D)
- 915mm legs
- Badger proof

Feed troughs can also be purchased  
without the badger defence kit

**Calf De-Horner Crate - Large**  
TC8200

- 1185mm x (L) 480mm (W) x 1195mm (H)
- Full access to rear of animal
- Easy to move with wheels and handle fitted

## Portable Cattle Handling System

- Strong yet easy to move
- Suitable for yard or field use

Because of the modular design of our Galvanised Portable Cattle Handling System, it is easy to tailor make a system to perfectly suit your own requirements. All items are quick and easy to assemble.

Suitable for both yard and field use (may require some permanent fixtures in a yard).

## Sheep Equipment

Our sheep handling range is designed and manufactured to make day-to-day handling of livestock more straightforward. Our comprehensive range includes sheep handling products like hurdles, sheep races, handling crates, weighers and footbaths.

### Sheep Hurdles

#### Interlocking Sheep Hurdles

- 970mm (3ft) tall
- Interlocking for stability
- Looped ends allow for easy connecting

Size	Code
1200mm	TS1110
1500mm	TS1119
1800mm	TS1120
2400mm	TS1130

#### Interlocking Half Mesh Hurdles

- 1050mm high half meshed sheep hurdles
- Available in 1.2m or 1.8m lengths
- Easily combined to create runs and pens

Size	Code
1200mm	TS1230
1800mm	TS1350

#### Lamb Creep Hurdle

TS1310

- 1830mm x 970mm high
- 7 horizontal rails
- Loop type coupling, compatible with interlocking hurdles

### Sheep Feeders

#### Sheep Hayrack on Wheels

- Double sided 76mm x 76mm hayrack
- New and improved design
- Suitable for small livestock and Alpacas
- Supplied with 4 x 254mm wheels x 25mm bore with rubber tyre
- 799mm wide lid with a Protex fastening and lid catch
- 600mm wide x 813mm high

Size	Code
1200mm	TS3215
2400mm	TS3210
3000mm	TS3200

#### Lamb Creep Feeder

- 460mm (W), 650mm (H), 728mm wide lid
- Unique easy exit up ladder designed to reduce head trapping

##### 1.2m feeder

- 12 feed spaces (designed to feed approx. 20)
- 1250mm long
- 117L capacity

##### 2.4m feeder

- 24 feed spaces (designed to feed approx. 35)
- 2440mm long
- 234L capacity

Size	Code
1200mm	TS3110
2400mm	TS3335

#### Double Sided Hay Feeder Basket

TS1100

- 475mm x 475mm x 490mm
- 75mm x 75mm mesh
- Holds at least 2 slices of hay from a small bale

#### Sheep Feed Ring

TS2110

- Suitable for sheep, lambs and alpacas
- 24 feed spaces
- For inside or outside use

#### Sheep Feed Trough

- A quality sheep trough of rigid construction
- Suitable for sheep, alpacas, goats, ponies, pigs and deer

Size	Code
900mm	WT403
1830mm	TS4130
2745mm	TS4140

Hook on  
available  
for 900mm  
& 1830mm  
size

Click link  
to view  
full farming  
product  
range

#### Hook over Sheep Hayrack

TS4300

- 75mm x 75mm weldmesh
- Sheeted end panels
- Hook brackets welded on

Size	Code
600mm	TS4295
915mm	TS4300
1250mm	TS4305
1830mm	TS4320

#### Ewe-Turnover Crate

TS7100

- Ease of operation for left or right handling with 2 height options
- Fully galvanised to BSEN ISO 1461
- 1600mm long x 820mm wide x 1100mm high

#### Hook on Sheep Trough

- 284mm wide x 123mm deep
- Ideal trough for calf or sheep pens when housed
- A portable feeding solution

Size	Code
915mm	TS4200
1370mm	TS4230
1830mm	TS4240

## Sheep Race System D

- Approximately 15m long x 5.1m wide
- All galvanised to BSEN ISO 1461

**Sheep System D** is the corner stone of a very versatile system, utilising a 4.88m x 8.6m long approx semi circular forcing pen.

Capable of holding 40 - 60 breeding ewes.

**Sheep System D Plus** builds on this to provide additional holding for one hundred head.

### Other size systems available

## Plastic Water Troughs

A plastic water trough is the perfect solution. Light, but strong and resistant, our plastic water troughs are easy to clean and transport. We have a variety of portable yet durable troughs available. Choose from fast-fill, single or double troughs in a variety of sizes. All plastics are frost-proof, UV protected and can withstand extreme climates, so are suitable for indoor or outdoor use. Perfect for horses, sheep, cattle and most other livestock, our water troughs are the ideal solution for your farm or field.

## Plastic Water Troughs

JFC 15 Gallon Water Trough  
JFCDT15

- 700 x 475 x 310mm
- Capacity 15 gallons / 68 litres
- Overflow 81 litres
- Fitted with a fast-flow valve (up to 34L/min @ 2bar pressure)

All water troughs fitted with a fast fill ball valve

JFC 30 Gallon Easy Access Trough  
JFCDT30

- 1250 x 475 x 310mm
- Easily moved from site to site
- Fitted with 2 drain offs for easy emptying and cleaning
- Fitted with a fast-flow valve (up to 41L/min @ 3 bar pressure)

JFC 450 Gallon Round Water Trough  
JFCDT450

- 2130 x 830mm
- Ideal for large groups of cattle
- Light and easy to move
- Drain plug fitted for easy emptying
- Fitted with a fast-flow valve (up to 41L/min @ 3 bar pressure)

JFC Thermal Drinker  
WOJFCTHERMALDRINKER

- Capacity - 20L
- 490mm D x 500mm W x 460mm H
- Prevents water freezing during winter months

JFC Micro Bowl Drinker  
JFCDBL4

- Dimensions 330 x 254 x 228mm
- 4 litres (0.9 gallons)
- Float valve & stainless steel protection cover
- 50mm drain off plug

JFC Conventional Drink Bowl  
JFCDBL

- Dimensions: 395 x 400 x 340mm
- 16 litres (3.5 gallons)
- Fitted with a 1/2" brass valve
- Built in drain plug

## Do You Need Our Advice?

Stuck with a particular part of a project and need advice? Then feel free to get in contact and our helpful staff will endeavour to help you.

## JFC Fast Fill Water Trough Key Features

- Fitted with a fast-flow valve (up to 41L/min @ 3 bar pressure).
- Valve protected with a polyethylene compartment with easy access.
- Thick walls for greater strength and durability.
- High freeze / thaw cracking resistance.

## JFC Double Reservoir Fast Fill Water Trough

Capacity	Dimensions (mm)
68L / 15 Gal	700D x 475W x 310H
136L / 30 Gal	1250D x 475W x 310H
400L / 88 Gal	1550D x 730W x 530H

## JFC Oval Fast Fill Water Trough

Capacity	Dimensions (mm)
450L / 100 Gal	1550D x 990W x 685H
600L / 130 Gal	1610D x 1180W x 840H
800L / 175 Gal	1970D x 1180W x 840H
1000L / 220 Gal	2180D x 1180W x 840H

Tapered sides to reduce badger access.

## JFC Circular Fast Fill Water Trough

Capacity	Dimensions (mm)
871L / 190 Gal	1540 Ø x 675H
1125L / 248 Gal	1725 Ø x 600H
1590L / 350 Gal	1590 Ø x 750H
1590L / 350 Gal	1590 Ø x 750H

Tapered sides to reduce badger access.

## Do you know the drinking water requirements for your livestock?

These figures are guides only as individual requirements will vary depending on individual circumstances, environment and diet.

### Cattle

SOURCE: DAERA.GOV.UK

Our drinking troughs are suitable for cattle, sheep, horses, alpacas and many other species. We have steel drinking troughs, plastic water troughs, universal drinkers and bowls, trough accessories and pumps.

## Steel Water Troughs

### Steel Livestock Water Trough

- 457mm wide x 405mm deep
- Includes 10mm drain plug & bung
- Manufactured from 1.5mm flat steel
- 30mm roll top for added strength and stability

Length	Capacity	Weight	Code
600mm (2ft)	109ltr (24 gallons)	18.65kg	WT02
915mm (3ft)	163ltr (36 gallons)	24.80kg	WT03
1220mm (4ft)	218ltr (48 gallons)	30.95kg	WT04
1525mm (5ft)	272ltr (60 gallons)	37.08kg	WT05
1830mm (6ft)	327ltr (72 gallons)	43.76kg	WT06
2440mm (8ft)	436ltr (96 gallons)	56.82kg	WT08

### Large Steel Livestock Water Trough

- 610mm wide x 610mm deep
- Includes 10mm drain plug & bung
- Manufactured from 1.6mm flat steel
- 30mm roll top for added strength and stability

Length	Capacity	Weight	Code
1220mm (4ft)	454ltr (100 gallons)	47.51kg	WT204
1830mm (6ft)	681ltr (150 gallons)	65.94kg	WT206
2440mm (8ft)	980ltr (200 gallons)	84.38kg	WT208
3050mm (10ft)	1135ltr (250 gallons)	99.91kg	WT210

### Steel Sheep Water Trough

- 457mm wide x 267mm deep
- Includes 10mm drain plug & bung
- Manufactured from 1.5mm flat steel
- 30mm roll top for added strength and stability

Length	Capacity	Weight	Code
915mm (3ft)	102ltr (22.5 gallons)	19.84kg	WT403
1220mm (4ft)	136ltr (30 gallons)	24.94kg	WT404
1830mm (6ft)	204ltr (45 gallons)	35.59kg	WT406
2440mm (8ft)	272ltr (60 gallons)	46.23kg	WT408

### Large Capacity Water Trough

- 1200mm wide x 610mm deep
- Includes 24mm drain plug & bung
- Manufactured from 2.0mm flat steel
- 30mm roll top for added strength and stability
- Fully welded integral service box (ball valve housing)

Length	Capacity	Weight	Code
3050mm (10ft)	2270ltr (500 gallons)	194.54kg	WT302
3660mm (12ft)	2724ltr (600 gallons)	227.82kg	WT304

Please note - All steel troughs are welded and then fully galvanised to BSEN ISO 1461 | WRAS Compliant

Disclaimer: Tolerances + or - 2%, please check at time of ordering if measurement is crucial

## Calf & Lamb Rearing, Footbaths, Dipping Tanks

### Milk Kart with Mixer

JFC MK170MP-3

- 1.5" lever valve allows user to control the amount dispensed
- Twist on lid minimises spillages and contamination
- Galvanised steel frame and dispensing nozzle
- Kart, motorised mixer and pump all available as separate items or as a combination
- Upgraded braked castor swivel wheels allow smooth manoeuvrability

### 10 Teat Calf / Lamb Feeder

- Designed with 2 reinforced hangers for mounting on a gate, rail or fence.
- Fitted with 2 hooks to provide extra security.
- Designed with minimum crevices making them easy to clean.
- An efficient way of delivering milk to 10 calves at once.
- The teats encourage a natural sucking action allowing milk to be delivered at an optimum rate.
- 22mm bored hole for fitting.

### Calf Hutches

- No planning permission required.
- Easy to clean and disinfect, providing a hygienic environment for the calf.
- Strong, durable and weather resistant.
- Adjustable roof vent for ventilation.
- Lightweight and easy to handle.
- A cost effective and versatile alternative to permanent shed/buildings.

### JFC Ribbed Cattle Footbath

JFCFB4

- Heavy duty, easy to clean plastic
- Helps reduce the spread of infection
- Profiled base opens hooves for extra penetration of solution

### Sheep / Calf Drinking Trough

JFCDL2

- Fitted with 1/2" brass valve, capable of up to 5L/min at 3 bar pressure (1/2" connection).
- Refills in 6 minutes at 3 bar pressure.
- Narrow double reservoir for placement between two areas giving several animals simultaneous access to water.
- Supplied with 2 stainless steel mounting brackets.
- Manufactured from tough and frost resistant polyethylene.

### Large Gate / Fence Feed Trough

JFCGFT 1

- Designed with 2 reinforced hangers for mounting on a gate, rail or fence.
- Fitted with 2 hooks to provide extra security and to prevent calves from knocking the feeder.
- Rounded edge design ensures animal safety.
- Finished with a smooth seamless coat to reduce feed build up and for ease of cleaning.
- Can be stacked to save space.
- Easy to transport

### Sheep Footbath (Smooth) 1540x570x140mm

JFCFB1

- Manufactured from tough polyethylene making them extremely hard wearing and durable.
- Smooth base is effective in the treatment of claw/hof diseases including interdigital dermatitis.
- Built in safety ribs to prevent slipping.
- Designed with a turned in lip which significantly reduces the amount of solution wasted due to spillages.

### Sheep Dipping Tank

JFC SD250

- Ground installation
- 136 Litres / 250 Gallons
- 108" (length) x 37" (width) x 48" (height)
- Sheep dipping tub with stepped exit
- Manufactured from tough, impact resistant and UV protected polyethylene
- Smooth edges for animal safety.
- Versatile tank for dipping or bathing sheep in disinfectant solution.
- Designed for installation in the ground with a stepped exit for smooth passage

## Pasture Pumps

### Aquamat II Pasture Pump Kit

KPP

- Ideal for cattle and horses
- Protects river banks and water courses
- Low cost solution for those without mains water or in catchment sensitive areas

#### Features

- 1 x Aquamat Nose pump Mk II
- 1 x Filter basket
- 7m of reinforced flexible hose
- Can supply 15-20 head of cattle
- Protects river banks and water courses
- Rust and UV resistant
- Quick installation time, approx. 20 mins
- No power is required to operate
- Tough polypropylene trough and steel mechanism
- Provides 7 metres vertical lift or 70 metres horizontal lift
- Dispenses 0.5L with each pump lever action
- Trough capacity 1 litre

#### Rough installation drawings

A. Traditional water source extraction

B. Using underground water source

### Battery and Solar Water Pump

SOLAR WATER PUMP

- Durable, weather-proof, polypropylene
- Holds up to 86 amp hour (12V) batteries
- Supplied with 30m hose and 30m cable

#### Kit includes

- Control box and battery compartment
- 60w solar panel and stand
- 30m hose
- Submersible pump
- With 30m cable

## Concrete Water Troughs & Supports

#### Concrete Troughs

- Product only stocked in our Devon depot
- Available in 6 sizes
- Special delivery terms - ask for a quote

#### Concrete Trough Supports

- Suits our 457mm & 600mm wide steel water troughs
- Effectively supports the water trough
- Raises the trough to the ideal drinking height

Available in two widths  
(460mm & 600mm)

## Harvest Products

We stock Twine / Netwrap / Stretch Wrap / Silage Sheets / Clingseal for all your spring harvest wrapping requirements.

## Stretchwrap

- Renowned for unrivalled performance
- Reliable, strong and durable with consistent quality
- High track level and long life ensures trouble-free wrapping
- Suitable for round and square bales
- Excellent protection during long winter months of storage
- Highly recommended 6 layers used

Width (mm)	Length (m)	Thickness	Rolls (per pallet)
750	1500	25um	40
500	1800	25um	48
250	1800	25um	64

- 30% more silage bales and no box
- Suitable for round baling
- Contractors tool to save you time and money

Width (mm)	Length (m)	Thickness	Rolls (per pallet)
750	1800	20um	40

## Netwrap

Width (mm)	Length (m)	Roll weight	Breaking strength	Pallet size
1230	3600	34.5kg	265kg - 270kg	28

• Net replacement film **BALETITE**

Width (mm)	Length (m)	Micron	Rolls per pallet
1280	1650	20	20
1380	2000	16	20

Crop	Bale size	No. of turns	Round bales (per roll)
Hay	1.2m Ø	2 - 3	330 - 300
	1.5m Ø	2 - 2.25	250 - 225
Silage	1.2m Ø	2.25 - 2.75	295 - 240
Straw	1.5m Ø	2 - 2.25	250 - 225

## Silage Nets, Tape & Bags

Product	Sizes (m)	Rolls (per pack)
Silage protection nets	8m x 25m	1
Tape	75mm x 33m	48
Tape	100mm x 33m	24
Patches	220 per roll	24
Silage bags	2.235m x 3.054m x 100um	10

# Twine

Not sure which grade twine you need for this year's crop?

Use the helpful guide below and get this year's harvest in with ease.

## International Baler Twine Segmentation

<b>EXTREME</b> For High Density balers where ultimate performance is required. Use it for straw in conditions of extreme density or high temperatures, short straw and corn stalks.	
<b>VERY HIGH</b> Specially designed for use in balers in the 'EXTRA' high density sector, or when baling in more extreme conditions - high temperatures, low humidity or making bales of extreme density.	
<b>HIGH (Equivalent to Type 130)</b> The best performing option for all crops and balers where high density is required. Use it for silage and for high density hay and straw bales.	
<b>STANDARD</b> A standard big bale twine, suitable for use in all crops and normal baling conditions.	
<b>LOW</b> A twine suitable for use in any big baler, where only the lowest bale density is required, which also gives maximum spool length.	

## Recommended Wrap Guide

LOW	STANDARD	HIGH	VERY HIGH	EXTREME
	Equivalent to Type 150	Equivalent to Type 130		Impax UHD Impax HD
Tama LSB Max	Tama LSB Long	Tama LSB Power	Tama HD Extra	Tama HD Prime
		Tama LSB Power XL	Tama HD Extra XL	Tama HD Prime XL

# Silage Sheets

All our sheets are manufactured using new techniques and improved raw polymer granules. This process is known for high strength, puncture resistance and excellent seal characteristics.

The innovative combination of Visqueen Agri-S and Visqueen Clingseal - a thin, flexible, low permeability sheet helps to create the right anaerobic conditions for fast, efficient fermentation.

In doing so it prevents pockets of trapped air forming to significantly reduce aerobic spoilage on the top and shoulders.

- Reduces air pockets
- Reduces losses in the clamp
- Facilitates a more efficient fermentation
- 100% recyclable

# Storage Tanks

## Domestic & commercial

### Single Skin Tanks

Constructed with the same high quality and care as Bunded Oil Storage Tanks, our Single Skin Storage is better suited for domestic usage. Available in various profiles and sizes.

### Water Storage

Suitable for potable water storage and non potable rain water harvesting. Our selection of water tanks can hold up to 10,000 litres (2200 gallons).

Supplied with a two year manufacturer's guarantee.

### Treatment Tanks

We can supply various off-mains drainage products and solutions to the domestic, civils/ commercial, agricultural and leisure sectors. If you are looking for a sewage treatment plant, grease trap, storm attenuation, septic conversion tanks, we have the answer. Made in the UK. On site surveys and advice available.

### Bunded Oil Storage

Avoid large fines for spillage by conforming with a bunded tank. Deso tanks comply with the latest European standards and provide cost effective solutions to domestic, commercial and agricultural storage and dispensing requirements. Supplied with a 10 year manufacturer's guarantee.

### Fuel Dispensers

Designed for easy access, our Fuel Dispensers are easy to install and come with the knowledge that they conform with latest regulations. Our range includes portable options and capacity varies from 430 to 5000 litres.

We stock a full range of storage tanks for both domestic and commercial use including; bunded oil storage, fuel dispensers, single skin tanks, water storage and sewage treatment plants/ septic tanks.

### Fuel Dispenser Pumps

Make your fuel delivery easier with a fuel pump station. Battery or mains available. The system contains a number of features, such as floatation gauge, particulate filter, auto shut off nozzle. Optional extras, longer hose and flow meter are available.

## Bunded Oil Storage

**Slim Line 1000 Litres  
(220 gallons)**

OTD1005G

- Length: 1890mm (6' 3")
- Width: 645mm (2' 1")
- Height: 1340mm (4' 5")

**Vertical 1340 Litres  
(295 gallons)**

OTD1010G

- Width: 1410mm (4' 8")
- Height: 1531mm (4' 11")
- Footprint: 1390mm (4' 7")

**Slim Line 1400 Litres  
(308 gallons)**

OTD1007G

- Length: 2140mm (6' 11")
- Width: 660mm (2' 1")
- Height: 1695mm (5' 3")

**1800 Litres  
(396 gallons)**

OTD1013G

- Length: 1970mm (6' 4")
- Width: 1350mm (4' 4")
- Height: 1510mm (4' 9")

**V2455 Litres (540 gallons)**

OTD1015G

- Width: 1700mm
- Height: 1730mm
- Footprint: 1670mm (5' 6")

**2500 Litres (550 gallons)**

OTD1025G

- Length: 2300mm (7' 5")
- Width: 1250mm (4' 1")
- Height: 1450mm (4' 7")

**V3500 Litres (770 gallons)**

OTD1018G

- Width: 2120mm (4' 1")
- Height: 1600mm (5' 3")
- Footprint: 2075mm (6' 10")

### Oil Tank Filter Assembly Kit

OTD2005

This filter assembly kit is a filter designed for heating oil tanks. The kit comes complete with everything that is required to quickly and simply install it.

- Oil filter complete with isolation valve
- 1" M BSPT x 1/2" M BSP conical fitting
- PTFE Tape
- Plastic pipe insert

### Sonic Oil Level Monitor

OTD2000

The Kingspan Watchman Sonic Advanced is a revolutionary electronic measuring gauge that monitors how much oil there is left in your oil tank and sets off an alarm in your home in the event of a sudden drop in oil levels. This helps you to ensure that you never run out of oil.

- Optional upgrade to Watchman SENSIT, allowing you to get oil level notifications directly to your phone.
- One model fits all
- Quick and easy to install
- Audible alarm when oil levels run out
- Low power consumption

## Single Skin Tanks

Our single skin tanks are ideal for domestic or small scale fuel storage

**Slim Line 1220 Litres (268 gallons)**

OTD1000

- Length: 2060mm (6' 9")
- Width: 660mm (2' 2")
- Height: 1120mm (3' 6")

**1900 Litres (417 gallons)**

OTD1290

- Length: 1850mm (6')
- Width: 1240mm (4' 1")
- Height: 1340mm (4' 5")

**2500 Litres (550 gallons)**

OTD1300

- Length: 1850mm (6')
- Width: 1240mm (4' 1")
- Height: 1340mm (4' 3")

## Fuel Dispensers

**Contract V1340 Litres  
(294 gallons)**

OTD1043

- Diameter: 1390mm (4' 5")
- Height: 1740mm (5' 7")

**Contract V2350 Litres  
(516 gallons)**

OTD1046

- Diameter: 1710mm (5' 6")
- Height: 1900mm (6' 2")

**V3500 Litres  
(770 gallons)**

OTD1058

- Diameter: 2150mm (7')
- Height: 1885mm (6' 1")

**V9400 Litres  
(2070 gallons)**

OTD1064

- Length: 3150mm (10' 3")
- Width: 2490mm (8' 16")
- Height: 2960mm (9' 7")

**H1550CDD Bunded  
Diesel Dispensing  
Tank (345 gallons)**

OTD1044

- Length: 2000mm
- Width: 950mm
- Height: 1500mm

**H2500CDD Bunded  
Diesel Dispensing  
Tank (294 gallons)**

OTD1057

- Length: 2300mm
- Width: 1250mm
- Height: 1450mm

**V5000PDDFM Deso Fuel  
Dispenser - 5000L  
(1000 gallons)**

- Diameter: 2480mm (8' 1")
- Height: 2000mm (6' 5")

**Each DESO  
dispenser pump  
comes with:**

A 240v pump, a 4m delivery hose (3/4") with an automatic shut off nozzle, a 10 micron particulate filter, an overflow prevention valve clock type contents gauge.

# TruckMaster

- Secure and reliable
- Safe transportation of diesel fuel
- Available with or without digital flow metre.
- Manufacturer 5 year guarantee.

Capacity	Dimensions
200L	600mm (L) x 800mm (W) x 620mm (H)
300L	600mm (L) x 800mm (W) x 890mm (H)

900L	1410mm (L) x 1050mm (W) x 1210mm (H)

Truckmaster is available on customer request

# Which size water tank do you need?

Calculating the size of a rainwater harvesting tank involves considering several factors, such as the average rainfall in your area, the surface area available for collecting rainwater, the intended use of the harvested water, and any specific requirements you may have. Here's a general approach to help you calculate the tank size:

- 1. Determine your water needs:** Start by assessing how much water you need to store. Consider your household or specific usage requirements, such as gardening, irrigation, or toilet flushing. Calculate the average daily water consumption or the amount of water you want to collect during a specific period.
  - 2. Determine the collection area:** Next, determine the surface area available for collecting rainwater. This could be the roof area of your house, a garage, or any other structure that can efficiently capture rainfall. Measure the length and width of the collection area and multiply them to get the total collection area in square meters.
  - 3. Determine the rainfall factor:** Research the average rainfall in your area. You can obtain this information from local weather records or online databases such as the Met Office. The rainfall is usually measured in millimeters. Convert the rainfall value to the same unit as your collection area (e.g., millimeters to square meters).
  - 4. Calculate the volume of water:** Multiply the collection area by the rainfall factor to determine the volume of water that can be collected during a rain event. This will give you the amount of water in cubic meters.
  - 5. Consider efficiency and storage capacity:** Rainwater harvesting systems are not 100% efficient due to factors like evaporation, leaks, and system losses. To account for these inefficiencies, multiply the calculated volume of water by a factor between 0.5 and 0.9. This will give you an estimate of the effective volume of water you can expect to collect and store.
  - 6. Calculate the amount of persons or animals usage**
  - 7. Select the tank size:** Based on the effective volume of water calculated in the previous step, choose a tank size that can accommodate that amount. Rainwater tanks are available in various sizes and shapes. Consider factors like available space, budget, and any local regulations or restrictions on tank sizes.
- It's important to note that this is a general approach to help you estimate the tank size. You may need to adjust the calculations based on specific factors in your situation. Additionally, it's recommended to consult with local experts or rainwater harvesting professionals who can provide more accurate guidance based on your location and specific needs.

# Potable & Non-Potable Storage Tanks

The UK's No.1 water storage tanks for drinking water and rainwater harvesting systems.

4500L	OT6023

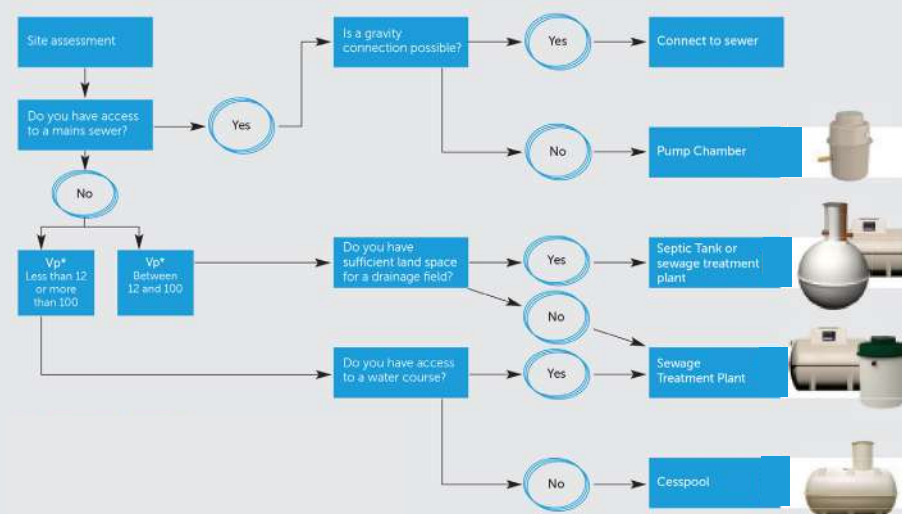

## Sewage treatment systems, what are your options?

Choosing the right sewage treatment and disposal method for your site is essential to ensure effective long-term performance, protection of public health and the environment, and compliance with relevant legislation. Sewage treatment and disposal can be provided by either public (foul) sewer or by a private sewage system. Use of a private system is only usually acceptable where connection to the public sewer is not possible, and as such should be discussed with your local Planning Authority at an early stage. Before sewage effluent can be discharged to 'controlled waters' it must receive at least primary and secondary treatment:

- For a discharge to ground the micro-organisms in the soil provide the secondary treatment
- For a discharge to a water course the sewage treatment must be provided by a Package Sewage Treatment Plant (PSTP) or equivalent

### System selection

Hierarchy of off-mains discharge routes as laid out by the environmental regulators and British Water

Marsh Ensign is widely regarded as one of the most efficient, reliable and economical sewage treatment plants on the market

# Water & Drainage

## Water solutions for the farm and field

### Ball Valve and Stop Taps

When water temperature drops below 0°C and turns to ice it can increase pressure and break traditional valves. The arctic resistant valve has been designed to absorb the increased water pressure during colder temperatures.

### Universal Fittings

Ideal for emergency repairs, Plass4 connects metric polyethylene to other pipe materials. Plass4 is easy to use with no specialist tools needed to complete the joint.

### Water Pipe Fittings

WRAS approved water pipe fittings. We stock a wide range of water pipe fittings. From ballvalves to stop tap chambers, Tees, elbows and couplers to non return valves and more, we can solve your burst pipe in a hurry.

### Twinwall Pipes

A new generation of HDPE, this 6m long high performance twinwall pipe is designed for use with all non-pressure, surface and sub-surface storm water drainage applications.

### Flexible Land Drainage Pipes

Plastic land drainage pipe is a modern replacement for clay pipes and has been universally and effectively used for over thirty years. This product is available in perforated and non-perforated options and in a range of sizes.

Drainage is of paramount importance to alleviate water-logged fields, lawns and gardens. Our products are suitable for domestic and commercial use so you can ensure that your land is protected from unexpected water leaks.

**PLASSON®**  
Flow Solutions

### MDPE Pipes

MDPE 20mm pipe has replaced the old black 1/2" class C & D pipe. 25mm has replaced the old black 3/4" class C & D pipe and 32mm has replaced the old black 1" class C & D pipe. All sizes are available in 25m, 50m, 100m, and 150m coils. Universally accepted as an established alternative to ductile iron and UPVC pipes.

Plasson Emergency Repair Kits

Let's face it, burst pipes happen... often needing a quick and affordable solution to get things fixed, preserving your precious water supply.

Plasson offer a range of clever products to solve your water leak problems.

**Did You Know?**

We also stock all the fittings required for water trough installations, stoptap chambers, concrete trough supports, non return valves, stop taps, ballvalves, pipe and fittings.

**Be WRAS & Water Board Compliant**

**BLACK 2 BLUE™ BLACK 2 BLACK™**  
**A Must Have For Every Tool Kit**

**BLACK 2 BLUE** - Imperial pipe connecting to metric PE: 1 fitting, no insert on imperial pipe, liner only required for metric pipe.

**BLACK 2 BLACK** - Imperial pipe, Class C & D, low and high density: 1 fitting, no insert, no liners.

Click the link water trough install guide

KEY FEATURES

- Assembly tools not required.
- No inserts needed.
- Seal is made when pipe inserted.
- Doesn't restrict flow or risk blockage.
- No need to disassemble.
- Easy to re-use.
- 50 year design life.

Click link above to view full product range

MDPE Water Pipe

Commonly known as alkathene pipe, 20mm has replaced the old black 1/2" class C & D pipe, 25mm has replaced the old black 3/4" class C & D pipe and 32mm has replaced the old black 1" class C & D pipe. All sizes are available in 25m, 50m, 100m, and 150m coils.

Universally accepted as an established alternative to ductile iron and UPVC pipes.

## Plastic Land Drainage (Flexi-Pipe)

Plastic land drainage pipe is a modern replacement for clay pipes and has been universally and effectively used for over thirty years.

Perforated and non-perforated options are available, in a range of pipe diameters, 60-160mm.

### Perforated land drainage

- Principally used to alleviate water logged fields, lawns and gardens.
- The plastic drain is laid in a permeable stone enclosure allowing the water to filter through to the plastic pipe which then directs the water to the designated outlet.

### Non-perforated land drainage

- Commonly used under gateways or when filling in a ditch.

*\* Please note — Various sizes available, dependent on the severity of the problem. Membrane sleeves can be added to the pipe particularly for fine soil types to prevent pipe blockage.*

### Benefits

- Strong and flexible
- Fast installation
- Provides excellent water flow
- Kitemarked to BS 4962:1989, License No. KM557607
- Manufactured from high quality RHDPE
- Tightly wound coils that enables easy stacking and handling

## Twinwall Pipe Lengths

A new generation of HDPE, this 6m long high performance twinwall pipe is designed for use with all non-pressure, surface and sub-surface storm water drainage applications.

Twinwall pipe is made by a twin extrusion process, which forms two pipes and heat welds them together as they are formed. It features a smooth bore for superior hydraulic flow and corrugated outer wall for additional strength.

Perforated and non-perforated options, in a range of pipe diameters from 94mm/110mm - 589mm/676mm (ID/OD). Half perforated available on special request.

### Why Twinwall?

- 50+ year life span
- High strength and durability
- Manufactured and tested to BBA
- Can easily be cut to required lengths on site
- Lightweight – easier transport, handling and installation
- Saves machinery and labour costs as installation is quicker
- Weighs less than 6% of equivalent size concrete pipes
- Minimal jointing compared with traditional materials
- Provides a faster flow meaning it is more likely to keep itself cleaner than singlewall pipe

Inside Diameter (ID)	Outside Diameter (OD)	Length (m)	Finish	Code
94mm	110mm	6m	Perforated	LDPTW22
			Non-perforated	LDPTW20

# Landscape & Roofing

Make your outside space  
that little bit more special

## Path Edging & Membrane Pins

Designed by landscape architects the award winning system is the perfect way to achieve straight, cornered and enviable curves and shapes in your landscaping project.

## Garden Design

Add the finishing touch to your project with one of our garden planters or traditional picnic benches. Our planters are made from galvanised steel (beware inferior alternatives) and our picnic benches provide a rustic option for alfresco dining.

## Roofing

Once you have completed your work, you want to ensure that it is fully protected from the elements. Our range of roofing solutions includes the popular Onduline Roofing, an extremely tough yet lightweight material with unrivalled versatility as a roofing or wall-cladding option.

## Sleepers

Available in green oak and hardwood our quality sleepers are suitable for an array of projects from soil retention to raised beds.

## Netting

For a quick, economic and effective solution, netting is useful in deterring access to your land from unwanted visitors (both human and animal!) Shop our range of plastic netting now.

Our landscaping options includes a selection of ground protection, sleepers, roofing and products to enhance your garden. We also have temporary netting solutions available to keep your project secure whilst it is under construction.

**Onduline®**

## Ground Protection

Our range of ground protection includes woven and non woven geotextile membrane. It is available in a range of sizes and grass protection solutions, all of which are suited to areas that receive heavy traffic including pedestrian and agricultural footfall.

To view the complete McVeigh Parker landscaping product range simply click the link to the right. ►

## Sleepers

### Hardwood Sleeper

F6090

- Grade A traditional reclaimed railway sleepers
- 2590mm x 250mm x 150mm

### Green Oak Sleeper

F6085

- New green oak sleepers
- 2400mm x 200mm x 100mm

## Geotextile Membrane

### Non-Woven Geotextile Membrane

Length	Code
4.5m x 100m (standard)	LDP720
4.5m x 100m (Premium)	LDP726

- Ideal for the separation of granular layers and ground reinforcement
- CBR puncture resistance (N)
- Water permeability (m/sec)

### Woven Geotextile Membrane

Length	Code
4.5m x 10m	LDP710
4.5m x 100m	LDP700

- Ideal for weed suppression and ground stabilisation
- Higher strength and lower permeability
- Two different roll sizes

## Plywood Sheets

- Perfect for a huge range of roofing & building uses
- 2440mm x 1220mm Plywood sheets
- Available in 12mm and 18mm thickness
- Hardwood face

Length	Code
Plywood 2440 x 1220 x 12mm	F6050
Plywood 2440 x 1220 x 18mm	F6055

## Ground Protection

### Grass Protection Mesh

F6085

- GP-Flex is the new generation grass protection mesh
- Features a slip resistant surface and more flexible profile
- Available in 3 different grades
- Roll size - 2m x 20m
- Slip resistant surface

Weight	Size	Code
1000g	2m x 20m	NET293
1400g		NET294
1800g		NET292

### Permeable Plastic Pavers

NET295

- Suitable for very heavy duty applications
- Used for overspill car parks, driveways and shed bases
- Each paver 330 x 330 x 40mm, 9 pavers per m2
- Interlocking plastic grid paving system
- 330 x 330 x 40mm
- Load bearing: 250 - 350 tonnes/m2 on a correctly specified and compacted sub-base

For full details check out the Pavers spec sheet, click the link below

## Barrier Safety Netting

NET001

NET002

- Size: 1m x 50m
- High visibility mesh
- Erect using steel fencing pins available separately
- Available in orange and blue

### Did You Know?

We also sell J & U pin path edging, see page 131

Barrier Netting Support Pins available on request

## Chesnut Paling

Our Paling Fencing, a classic and versatile fencing solution designed to cater to all your fencing needs. Manufactured from coppiced woodland, this fencing product showcases the perfect combination of durability, flexibility, and ease of installation.

The wood is skillfully split into pales, and galvanized wire is intricately woven between them, ensuring exceptional strength and longevity.

# Tools & Fixings

For industrial,  
agricultural &  
domestic use

## Tensioning

Suited for horse or deer stock fencing and netting. Our range of tensioning tools has all you need. Products include a selection of innovative Gripple tensioning products, boundary clamps, wire chain strainers, wire pullers and more.

## Striking

Sometimes you need to pack some power to get the job done. Our striking tools are perfect for making an impact when you need to get deep. We have sledgehammers, shock hammers, petrol driven post drivers and log splitting tools.

## Cutting & Joining

Our innovative cutting and joining products help make easy work of wire cutting and joining your fenceline with popular products including our Knipex wire cutters, Strainrite Crimps Sleeves and Gripple wire joiners.

## Digging

Our range includes all your essentials, including post hole diggers, chisels and points as well as a selection of shovels. We also stock a wide range of insulated tools which conform to BS8020:2011 and are flash tested to 10,000 volts to ensure safe working practice.

## Fixings

We have a comprehensive range of netting clips and other fixings for fence erection and much more. Our stapling range helps you to make a quick job of stock fencing.

The range includes battery powered staplers.

## Other Tools

Aptly named 'other tools' this category contains our range of wheelbarrows, tarpaulins, spinning jenny wire dispensers and more.

Whatever project you are undertaking, industrial, agricultural or domestic, we have the tools and fixings you need to ensure you get the job done from many great tool brands

To view the complete McVeigh Parker tools & fixings product range simply click the link to the right. ►

Or use the following URL:  
[www.mcveighparker.com/tools-and-fixings](http://www.mcveighparker.com/tools-and-fixings)

## Agriculture, Fencing & Equipment

Market-leading wire joiners and tensioners which simplify installation, maintenance and repair across a range of applications.

The Gripple Barbed High Tensile joiner has been intentionally designed to grip the unique shape of barbed wire.

### Stronger than a traditional knot

Up to 16% stronger than a traditional wire knot.

### Designed for high tensile wire

New patented technology specifically designed for use with high tensile barbed wire.

### Easy to install

Join or repair high tensile barbed wire in seconds with audible engagement for added confidence.

### Long lasting

Made from corrosion resistant materials, designed to outlast your fence.

### Compatible with

Use with 1.57 mm to 2 mm wire (2 x 15.5 swg - 2 x 14 swg).

It is fast to install, simple to use, and thanks to the new corrosion resistant ceramic wedge, you can walk away with the confidence that your wire joint will last as long as your fence.

Compatible with all wire sizes from 1.57 mm – 2.00 mm (2 x 15.5 swg - 2 x 14 swg), the new Barbed High Tensile joiner is ideal for installation or fencing repair.

## GRIPPLE Fence Kit

As market leader in the joining and tensioning of wire, Gripple is renowned for providing innovative, cost-effective solutions for wire fencing applications. Our products work with a wide variety of mild and tensile fencing wires - across barbed and plain fencing types, and on anything from stock to electric fencing, replacing traditional methods and generating time and labour savings.

## GRIPPLE Orchard Kit

Our range of orchard trellising products have been specifically developed to help with heavy fruit loads. Gripple's range is suitable for orchards in a variety of terrains and soil types.

**Gripple Barbed...**  
Check out the Gripple brochure, click the link below.

## GRIPPLE Vineyard Kit

In today's vineyards, the wires, posts, and machinery used are constantly being improved, and Gripple prides itself on being part of that evolution. The Gripple Plus product range, along with the Torq Tensioning Tool and Contractor Tool, not only provides a trellising system that can be tensioned in seconds, but one that will last for decades.

## Tensioning

### Gripple Contractor Tool A1518

- 10:1 mechanical advantage, meaning you can apply the same tension with a lot less effort.
- All steel handles

### Gripple Tensioning Tool A1510

- Allows tensioning of wire up to 400 kg
- Minimal effort due to the 6:1 gear drive mechanism

### Gripple Wire Joiners

Size	Description	Code
<b>Small</b> 50 per bag	Used to join plain wire and install lightweight stock netting.	A1512
<b>Medium</b> 20 per bag	Used as an in-line joiner or as an end anchor for stock fencing, high tensile barbed wire and plain wire.	A1520
<b>Jumbo</b> 10 per bag	Used as an in-line joiner or as an end anchor for stock fencing, fruit trellising and plain wire.	A1540
<b>Barbed</b> 10 per bag	Specifically designed to grip the unique undulating shape of barbed wire.	A1530 A1531

### Gripple T-Clips

**Normal** 20 per bag  
A1525

**Barbed** 10 per bag  
A1525

**Gripple Twister Pack**  
A1550

- Use on 2.00 - 3.25mm wire
- 35mm long
- UV treated for longevity

### Gripple GPAK 3 Anchor A1565

- Includes one medium Gripple
- 3mm wire rope x 4.5m long, 400kg load

### Gripple GPAK 4 Anchor A1570

- Includes one large Gripple
- 4mm wire rope x 5.0m long, 600kg load

### Gripple Anchor 3 A1560

- Anchor 3 - Wire rope 3.0mm
- Wire length 1.5m
- Time and labour saving - quick to install
- Minimal ground disturbance
- Suitable for a variety of soil types
- Instant load holding

### Gripple Anchor Installation guide

## QUIK-END CLIP

CODE: EF4099

Is an easy termination solution. Doing away with end knots and improve the strength of your fence at the same time. Faster than tying off a knot and great value, these clips will save time and money while increasing the strength of your fence.

### FEATURES

- Reduce installation time
- Quick, fast and easy to install
- Ideal for fabricated netting, especially Otter and horse netting
- Provides uniform straining position, every time
- Pre-formed loop & knot
- Ability to thread onto wire = fewer joints
- Cost-effective & convenient to use
- No knots are required whatsoever
- Maximum working pressure load 340kg
- 2.50mm spring steel and heavy galvanised finish
- 100 Per Pack

CLICK LINK FOR VIDEO INSTALL GUIDE

## Premium Heavy Duty U & J - Pins

Steel U & J - Pins, are tough enough to be driven into most soil types using a simple club hammer. Recommended to hold down fence sections where there is to be a likelihood of dogs or burrowing animals.

The ribbed re-bar fabrication makes them a stronger holding pin than other material types.

### Ideal for grass protection & rabbit netting

Tensile Strength	Weight	Box Contents	Coated Weight
550 - 625N/mm <sup>2</sup>	115 grams	200 pins	Electroplated 8 - 10 microns

**Estimated Pin Requirements :** A guide only, some soil types or topography may require more or less

Initial Roll	Pins req.
*Grass Reinforcement Mesh : 2m x 20m	200
Turf Reinforcement Mesh : 2m x 20m	150
Badger fencing wire netting : 1.58m x 50m	150
* Badger embankment netting (as above)	395
* Rabbit netting fencing per 50m	150
Rabbit netting embankment 50m	300

Note - If soil is soft or you require a stronger holding consider U pins (CL4294) or Terra-pins (A1557).

\* J Pins can be used with grass reinforcement mesh, badger and rabbit netting

Strainrite are a leading manufacturer & exporter of quality tools and fencing equipment. Offering a variety of tools and equipment in the field by farmers for farmers. McVeigh Parker are proud to be European wholesalers and retailers of this quality range of products.

## Official wholesaler of PROCRIMP F3020 Powered Crimping Tool

Click the link to view full product details.

Can be used with various Strainrite crimp sleeve sizes upto 4mm

### FEATURES

- Light, compact and easy to handle
- Fast jaw action allows repeat crimping
- Battery belt, reduces overall weight of the tool
- Long lasting lightweight battery 8 hours and only 698g
- Crimps all Strainrite crimps up to 4mm without any changes needed, Narrow jaws give you greater access to smaller spaces.

## Striking

### Petrol Hand Held Post Driver

CL2795

- Standard 78mm Machine
- KW1.0 (1.3HP) at 7,000 rpm
- 4-stroke, overhead cam
- Trigger throttle with integrated stop button
- Spring isolated hand grips
- Vibration levels m/s<sup>2</sup> - 9.94 (Data from 100mm diameter wooden post)
- Fuel consumption - 0.71 L/h at 7,000 rpm
- Meets strictest worldwide emission and noise req.
- Weight - 15.3kg
- Engine warranty - 1 Year genuine Honda warranty
- Post driver warranty - 1 Year parts failure
- Noise level - >100dB NOTE: Hearing protection required
- CLIPEX clips & sleeves compatible

## Post Drivers

### Roughneck Small Post Rammer

CL2790

The Roughneck small post rammer is ideal for driving in angular, tubular and square posts. The heavy gauge tubular steel body accommodates post up to 68mm in diameter, and features large handles for safe and secure use.

- Heavy gauge tubular steel body
- Anti-corrosion powder coated finish

HEAVY DUTY

LARGE HANDLES

POWDER COATED

Internal Dia.	Length	Width	Weight
68mm	714mm	230mm	9200g

### Post Hole Bumper/Rammer

A2430

155mm o/d dia painted two handled post bumper/rammer. Essential tool for driving in various sized posts. Manually operated by one or two persons.

- Weight approx. 12.8 kilo.
- Size: 640mm x 155mm dia

### Strainrite Steel Post Driver

A2433

- Reduced noise and shock on impact back through operators hands
- Solid welded steel construction
- Special design for improved service life
- Overall height 800mm (31.5")
- Overall width 220mm (8.5")
- Internal Diameter 54mm (2")
- Overall handle Length 520mm (20.5")

### Fence Maul with Fibreglass Shaft

A2436

Fencing maul 5kg head with a fibreglass handle, ideal for driving in wooden fence posts.

### Fence Maul 5kg Alloy Head c/w Hickory Handle

A2437

- 5kg aluminium alloy hammer head

### Clipex Standard Post Rammer

A2428

Handy for Clipex standards and eco posts and timber stakes up to 70mm diameter.

- 70mm diameter
- 8kg weight
- 80cm length

### Fence Maul with Hickory Handle

A2435

Fencing maul 5kg head with a hickory handle, ideal for driving in wooden fence posts.

## Post Driver Sleeves

### Strainrite Steel Post Drive Sleeve 54mm

A2434

- Solid welded steel construction and painted finish
- Use with sledge hammer
- Overall height 180mm (7")
- Internal diameter 54mm (2")
- Suitable for light duty driving of steel posts, tie-down posts & finish driving of earth stakes

## Staple Pullers / Cutters

Do you struggle getting staples out of old posts? Not anymore, Strainrite's Staple Puller simplifies the job, no more fighting with hammer, crimp sleeves and fencing pliers!

This is not just a staple puller, this multi-purpose tool has a wire cutter that competes with some of the best in the market. It can also be used to strip, grip and twist wire.

Ezepull Ultracrimp  
5 in 1 Fencing Tool  
A2247

5 in 1 tool

## Crimp Sleeves

Genuine New Zealand made crimp sleeves are used to permanently join wire netting and line wire.

These crimp sleeves provide a joint that exceeds the strength of the wire. It's the easiest and most effective means of joining wire without the time consuming job of hand tying. Crimps are designed to provide a non-abrasive permanent joint, almost half the price of standard wire joiners such as Gripples, using both will give you permanent joints, whilst Gripples will allow you to re-tension the fence should you wish to at a later date.

Strainrite  
Crimps  
A1341

## Wire Strainers

The most versatile wire strainer.

Why use an XT1 instead of standard cliplock? They have the added advantage of a wire capture lug meaning they can be used in the fence line, not just at ends. Ideal for starter runs and can be retensioned.

XT1 lug capture

Strainrite XT1  
Permanent Wire  
Strainer

EF4097

### DURASHIELD Insulator

- Superior electrical retention in wet conditions
- Compatible with Cliplock or XT1 permanent wire strainers
- Engineered for top performance at an affordable price

Strainrite  
Durashield  
Insulator  
EF4097D

- Simple replacement with Snap-On fitting system
- Constructed with Ecoblend ASA – strong, durable and UV-stabilized
- Insulators only, sold in packs of 10

## Insul Activator Strap

Insul-activator strap insulator is a unique product, quick and simple to install with various advantages over traditional methods.

Multi-function Post Insulator - Eliminates auxiliary components such as the egg insulator, pin lock insulator, activator plate and separate electrical lead.

Handles  
not  
Included

## Cutting & Joining

Strainrite Staple Cutter/Puller

A2016

- One Handed Staple Pulling PLUS Wire Twister, Wire Cutter, Wire Stripper and Wire Grip
- Ergonomic design that is comfortable to use and well balanced
- Dimensions: 75mm x 265mm

Strainrite Standard Wire Cutter

A2019

- Lever action
- Hardened cutting edges for up to 2.5 HT wire
- Comfortable non-slip handles.
- Overall length 205mm (8")

Multi Fence Pliers

A2000

- Head incorporates a striking face
- Staple removing hook
- Pincer and clamp on top jaw

Expert Wire Cutters - Parrot Beak

A2012

- Essential for cutting stock fencing, barbed and line wire
- Single handled use

Knipex Cutters

A2043

- Precision cutting
- Suitable for soft and hard wire up to 5.2mm
- 64 HRC on the Rockwell rating system
- Recess cutting edge
- Cuts spring steel up to 3.6mm

Knipex Compact Bolt Cutters

A2041

- Extremely high cutting performance in a convenient length of 160 mm
- Small, slim head for excellent accessibility
- Compact and powerful: cuts bolts, nails, rivets etc.

Maun Parallel Action Side Cutter

A2020

- 200mm - Maun pliers
- Cutting capacity Ø (mm)  
Hard Wire - 2.5 / Soft Wire - 6.0
- Jaw width (mm) - 12.5
- Jaw opening (mm) - 17

McVeigh Parker are a main supplier of Strainrite Fencing Systems. Contact one of our depots to find out more.

## Wireman Tools

### "The Gripper" A2218

- Will not slip or drop off the wire
- 1-4mm wire capacity
- Easy to handle
- Spring loaded
- Plier type release
- Replaceable grip points
- 6mm quick link

### Winch Strainer A2219

- Easy to use
- Non-slip replaceable teeth
- Deliver full load transfer
- Wire strainer, 500kg hoist

### Digital Tension Gauge A2213

- 300 Kgs in Line Crane Scale
- Cast Alloy Body
- Large 2" LCD backlight display
- 2 AA Batteries Supplied
- 10mm Diameter Stainless Steel U bolt and Hook
- Measure Tension in Kilos, Newtons or Pounds.

### Helpful Hint

*The Wireman Winch, a safer tool and more precision.*

Enabling you to grip the wire without maintaining tension on the wire. Spring loaded scissor action jaws make them easy to attach and release.

# GRAB A GRIPPER

INNOVATIVE TOOLS MAKING FENCING EASIER, FASTER AND SAFER

## Milwaukee Fencing Tools

### Milwaukee M18 Fuel Utility Fencing Stapler

### Stapler

- Milwaukee M18 Fuel Utility Fencing Stapler x 1
- M18 High Output 3.0AH Battery x 2
- M12-18 Fast Charger x 1
- Kitbox x 1

One full charge will approximately use one box of staples

### Milwaukee M18 Fuel Utility Fencing Staples

Suitable for all types of wire fencing attached to wood ie. livestock fencing, square/chain/barbed wire and high tensile wire. Staples are hot dipped galvanised coating for superior long term corrosion resistance and made from 4mm thick steel wire for best lifetime in outdoor applications.

Features sharp divergent point tips – the staple point tip twists as it is driven into the wood giving better holding power and the red adhesive coating gives increased drivability while maximizing holding power.

Staple Box Options	Code
40 x 4mm staples	FX2745
45 x 4mm staples	FX2746
50 x 4mm staples	FX2747

Click link to view full product range

### Did You Know?

*We also stock standard & barbed fencing staples*

See page 143

Years of reliability and trouble-free straining

## Tensioning & Strainer Tools

### Simple Wire Tensioner

A2245

- A simple wire strainer
- Pivoting head pinching the single wire gives excellent leverage
- Compatible with plain or barbed wire 1.6 - 4.0mm

### Fence Wire Tensioning Tool

A2246

- Fence wire tensioning tool designed for tensioning wire (including barbed wire) up to 4 mm diameter prior to stapling onto wooden fencing posts
- Stock fence netting can be tensioned one strand at a time, ideal for emergency repairs

### Strainrite Tensioning Tool

A2243

- Easily tie off/staple wire hands free!
- Quick and easily tensions either fencing or netting wire around strainer posts
- Smooth grip wire clamp prevents wire damage
- Overall length approx 678mm (26")

### Hook Chain Strainer

A2210

- Chain length: 6 Metre (19'7") tested chain
- Clevis hook on the chain and strainer body
- Loading: 600kg load max
- Handle length: 45cm (18")
- Simple to use

### Wire Grab Strainer

A2215

- Also known as a Monkey chain strainer
- Swivels for left or right hand operation
- Compatible with single or barbed wires, from wire dia - 1.6mm to 5.0mm

## Boundary Clamps

Strainer clamps are a specialist item used by professional fencing contractors. It is the perfect tool to provide correct and even tension to any livestock fence. It will save you time and money in erection costs whilst ensuring that you achieve a professional constant tension.

### Options Available

McVeigh Parker strainer clamps are available for stock fence, horse and deer netting. Dependent on your choice of clamp for stock fence, horse or deer netting, the clamp has 3-5 tensioning points both sides. Simply attach your grab chain strainer (A2210) at the top, middle and bottom for even tension.

Quick fit wedges make straining wire quick and easy. Simply place the wire over the tubular sections and hammer the wedges in, clamping the wire in place. Once strained the clamps can be quickly and easily knocked out.

### Specifications

- Painted fluorescent orange, easily visible in the field
- Frame is manufactured from 5mm flat high tensile steel
- 32mm dia x 4mm thick seamless tube clamp bar
- High tensile strength 370-500 N/mm<sup>2</sup> to BS 080A15
- Dee shackle straining point supplied hot dip galvanised
- Wedges 12.5mm thick, zinc plated

- All models are manufactured from heavy duty, high tensile steel.

Size	Code
Stock 1.0m - 3 tensioning points	A2220
Horse 1.3m - 4 tensioning points	A2225
Deer 2.0m - 4 tensioning points	A2230

## Netting Tools & Clips

### Netting Pliers – Rapid 22

A1145

- Spring loading cartridge
- Magazine capacity - 50 pre-formed clips
- Hog ring diameter 5-11mm

### Netting Pliers - CL22 RP22

A1210

- Spring loaded, automatic feed for one handed speedy operation
- Magazine capacity - 50 pre-formed clips
- Forms a 6-8mm triangular ring

### Netting Pliers – SR8

A1120

- All steel design with a spring-loaded magazine capacity - 50 pre-formed clips
- Forms a circular clip

### Netting Pliers – CL37

A1140

- Magazine capacity - 25 pre-formed clips
- Forms a triangular ring

### Netting Clips – M Ring (Hog Ring)

A1146

- Galvanised Steel 2.0mm
- Open: 20mm (W) x 11mm (H) x 2mm thick
- Closed: 10mm wide (outer), 5mm (inner)
- 1600 per box

### Netting Clips – CL22 RP22

STAINLESS STEEL: A1224  
GALVANISED: A1222

- Galvanised and stainless steel options available
- Wire gauge: 1.83mm (15 gauge)
- Open: 19.05mm (3/4") Crown
- Closed: 6.35mm (1/4")
- 1000 per box

### Netting Clips – SR8

A1110

- Wire gauge: 1.52mm (16 gauge)
- Open: 17.46mm (11/16") Crown
- Closed: 7.14mm (9/32") Diameter
- 2500 per box

### Netting Clips – CL37

A1130

- Aluminium mild steel
- Wire gauge: 3.759mm (9 gauge)
- Open: 30.18mm
- Closed: 11.11mm triangular shaped clip
- 3000 per box

### Weld Mesh Manual Netting Pliers – CL35

A1257

- Solo manual single clip fencing tool
- Designed for low to medium service life and easy maintenance
- Use with loose clips

### CL35 Clip Gun - CL35

A1250

- Can be used for tree guards, bird control, fruit and rabbit netting
- Suits our CL35 netting clips
- Heavy duty construction for everyday use

### Weld Mesh Netting Clips Loose Galvanised – CL35

A1259

- Hot dip galvanised
- Clip is 19mm wide x 20mm deep when open
- 12mm dia circle when closed
- 1000 loose per box.

### Weld Mesh Stainless Steel Netting Clips - CL35

A1255

- 19mm wide x 20mm deep when open
- 12mm dia circle when closed
- Supplied in pre-formed strips for easy loading
- 1224 per box

## Staple install guide

Below, the do's and don'ts when installing fencing staples.

## Staples

- Indented design for greater holding
- Heavily galvanised for longer life
- Sharp long pointed points for easier driving

Dimensions	Per Box	Code
25mm x 2.60mm	486	FX2201
30mm x 3.55mm	226	FX2301
40mm x 4.10mm	136	FX2401

### Barbed Staples

FX2607

- For increased holding and use with high tensile or spring steel we recommend using barbed staples
- 40mm x 4mm barbed staples

## Nails & Screws

### Nails

Available in both round head and spring head options supplied in 1kg bags.

- Available in a range of different sizes
- Heavily galvanised for longer life
- Sharp long pointed points for easier driving

Dimensions	Style	Per Kg Bag	Code
65mm x 2.65mm	Round Head	216	FX1451
75mm x 3.75mm	Round Head	187	FX1501
100mm x 4.0mm	Round Head	101	FX1001
125mm x 5.0mm	Round Head	51	FX1701
150mm x 6.0mm	Round Head	31	FX1901
65mm x 3.35mm	Spring Head	140	FX3001

Round Head Nail

Spring Head Nail

### Nail Plates FX3200

Add strength to your wooden posts with our nail plate strengthening post tops.

Nail plates help to reduce natural splitting, especially in Chestnut products.

- Add strength to wooden posts
- Also used to build/reinforce simple structures
- Currently available in 2 sizes

### Carpenter Mate Screws FX6415

The Carpenters mate Pro Hex Head Screws are specialized fasteners designed primarily for heavy-duty timber construction. Known for their durability and strength, they're particularly popular among professionals in fields like decking, and fencing, as well as among DIY enthusiasts looking for reliable, long-lasting screws.

Sizes Available:

- 90mm
- 140mm
- 190mm

### Tek Screws FX6003

Self Drilling Screws or Tek Screws enable the assembler to quickly attach materials such as steel, aluminium, composites or timber to steel section, or similar, up to 35mm thickness without the need for any pre-drilling or thread tapping.

- Various styles available

### Masonry Screws FX3005

A versatile mechanical anchor that performs well in a wide variety of building materials. Advantages A mechanical fixing with no expansion stress on substrate.

- A mechanical fixing with no expansion stress on substrate.
- Fixes close to the edge.
- Self tapping thread allows for total removal of the anchor making it ideal for temporary fixings.

## Digging

### Economy Post Hole Digger A2320

- Lightweight economy post hole digger
- Wooden handles
- 150mm x 450mm blade
- Our most popular post hole digger
- A must for contractors

### Roughneck Post Hole Digger A2303

- 1650mm long
- 240mm x 450mm blade
- Strong construction
- Our most popular post hole digger
- A must for contractors
- Get deeper with hinged arms

### Insulated Post Hole Digger A2318

- Product handle - 48" solid core fibreglass BS8020:2011
- Product size - 7" dia X 10.1/2" blade
- 60% fibre in the solid fibreglass core handles, nearly 50% more than cheaper makes

### Insulated Post Hole Digger A2301

- Fully insulated BS8020:2011
- Scissor action
- New improved design
- A must for fencing contractors
- 1220mm (48") solid fibreglass handles
- 32mm (1.2") diameter handles
- 3200mm x 650mm (7.8" x 2'1") blade size

### Insulated Crowbar Chisel and Point A2358

- 32mm solid core fibreglass BS8020 handle
- 1524mm (60") overall height
- 60% fibre in the solid fibreglass core handles, nearly 50% more than cheaper makes
- Solid forged heads
- Strongest in the industry

### Insulated GPO Post Hole Graft A2353

- Blade size - 125mm x 300mm (5' X 12")
- Handle - 1350mm (54") solid core fibreglass handle
- 60% fibre in the solid fibreglass core handles, nearly 50% more than cheaper makes
- Solid forged heads
- Strongest in the industry

**Insulated Navy Pick****A2355**

- Suitable for breaking up hard ground
- Weight 7lb
- 914mm (36") handle
- 60% fibre in the solid fibreglass core handles, nearly 50% more than cheaper makes
- Solid forged heads
- Strongest in the industry

**Insulated Clay Graft****A2351**

- 28" polyfibre shocksafe insulated handle
- 152mm x 304mm (6" x 12") blade
- 60% fibre in the solid fibreglass core handles, nearly 50% more than cheaper makes
- Solid forged heads
- Strongest in the industry

**Other Tools****Galvanised Spinning Jenny Wire Dispenser****A2200**

- A heavy duty design, electroplated finish, high quality 'Spinning Jenny' wire dispenser is an essential tool when handling wire coils
- The fully welded box section construction is sturdy heavy duty with a central ground spike
- The brackets adjust by a simple wing nut operation to the diameter of the coil. Not only is dispensing wire made easy, it can also be used for recoiling old wire.

**Collapsible Spinning Jenny Wire Dispenser****A2201**

- A heavy duty design, electroplated finish, high quality 'Spinning Jenny' wire dispenser is an essential tool when handling wire coils
- Sturdy heavy duty with a central ground spike
- Can also be used for recoiling old wire.

More wire dispensers  
available in the Strainrite range

**MULTI-AWARD WINNING FENCING  
SOLUTION, TRIED, TESTED, PROVEN**

**CLIPEX**

LEAVE NOTHING TO CHANCE

**GOLD**  
Livestock Innovation

# STRENGTH, IT ALL STARTS WITH THE WIRE

- 24% stronger knot
- Zinc/ aluminium coating
- Last 3-4 times longer
- Primary metals only used
- 450mm pre-stripped ends
- Exceeds BS EN 10244 Class A

**PREMIUM, WORLD - LEADING WIRE,  
GIVING YOU THE BEST RETURN ON  
YOUR INVESTMENT**

### How Big is Your Field Perimeter?

With the easy to use charts below calculate your field perimeter, then how much fencing is needed to enclose the space.

Distances and areas are approximate only.

### Fence Perimeter Length Calculator

Hectares	Acres	Fencing Required in Metres
0.1 hectares	1/4 acre	= 127 metres
0.2 hectares	1/2 acre	= 180 metres
0.3 hectares	3/4 acre	= 220 metres
0.4 hectares	1 acre	= 255 metres
0.81 hectares	2 acres	= 360 metres
1.21 hectares	3 acres	= 441 metres
1.62 hectares	4 acres	= 509 metres
2.02 hectares	5 acres	= 569 metres
4.05 hectares	10 acres	= 805 metres
8.09 hectares	20 acres	= 1141 metres
16.19 hectares	40 acres	= 1609 metres
20.24 hectares	50 acres	= 1800 metres

### How Many Staples per Kilo?

Our customers ask us all the time how many staples they get per kilo. The table below hopefully answers a lot of those questions.

Staple Description	Staples Per Kilo
15 x 1.6mm Staples	2191
20 x 2.0mm Staples	1079
25 x 2.65mm Staples	486
30 x 3.35mm Staples	226
40 x 4.0mm Staples	136
50 x 5.0mm Staples	70
40mm Barbed Staple	136
30mm Barbed Staple	226

### Wire Gauge Chart

Wire Gauge Tip: The bigger the number the smaller the wire gauge

Wire Gauge	*Wire Diameter
8	4.00mm
10	3.15mm
12	2.50mm
14	2.00mm
16	1.60mm
18	1.20mm
19	1.00mm
20	0.90mm
22	0.70mm

\*Wire gauge diameters are an approximate
